NOTICE OF MOTION

Councillor McColl sought and obtained authorisation from the Council to withdraw his Notice of Motion, having regard to the matters which were the subject of the minute's silence.

NOTICE OF MOTION

A Notice of Motion was received from Councillor Andrew White and an addition to that Motion was tabled. The Motion so amended read as follows: -

"This Council reaffirms that it requires an Authority which is efficient, effective and responsive to the community and provides best value to the residents and taxpayers of West Dunbartonshire.

This Council believes that it is right and proper that -

Council Tax increases should be kept to a minimum;

front-line services and in particular services to our elderly, disabled and vulnerable, should be protected and where possible expanded;

every area of Council expenditure should be examined for savings.

This Council therefore reaffirms its decision to have an independent review of its management structure. This Council proposes that the review should be undertaken by appropriately qualified consultants appointed by Cosla.

The Council proposes that the terms of reference should be to review the Council's management structure having regard to the structure of comparable Councils and to identify where management can be rationalised and streamlined, and savings achieved.

The Council proposes that we set a benchmark for the review of £300,000.

Furthermore, Council believes that this action is necessary to achieve our objective of establishing a best value culture within the Authority, while keeping the Council Tax to a minimum."

Council notes that the consultants chosen by COSLA will be contracted to the Council.

Furthermore, this Council recognises the value of trade union consultation, therefore the Head of Personnel and Training is requested to arrange a meeting with trade union representatives within the next two weeks. Councillors White and Devine will be in attendance at that meeting, for the purpose of explaining the Council's decision.

Council also requests the Head of Corporate Policy and Public Relations to liaise with the Leader of the Council with regard to the inclusion of an article in a prominent position in the next employee newsletter, explaining the Council's decision."

As an amendment, Councillor Mackechnie, seconded by Councillor McLaughlin, moved as follows:-

“This Council agrees that this item be continued to the September meeting of fix Council to allow answers to be obtained to the following questions: -

- (1) What is the definition of management as used in the Motion?
- (2) Does it include posts in any or all of the Bands used in the Joint Staffing Watch distributed by COSLA?
- (3) What are the criteria to be used to choose comparable Councils? Are any or all of the following to be used - population, poverty, geography or a combination thereof?
- (4) Reference is made to Financial Regulation C 1, namely that "no expenditure shall be incurred unless included in the annual estimates or covered by a supplementary estimate approved by the Finance Committee after the submission of a report thereon." What is the estimated expenditure and where is the report?
- (5) Reference is made to Financial Regulation 1 (5) "Value for Money". Does this Motion satisfy the requirements of Value for Money?
- (6) Clarification is sought on the competence of the proposed procedure. Does COSLA's constitution permit it to appoint consultants who will then be contracted to the Council?
- (7) What will the cost of the exercise be?
- (8) Have the Trade Unions been consulted on the terms of reference and the benchmark figure to apply? It is clear from the terms of the Motion that the administration intends that the trade unions will be informed not consulted.
- (9) What is the real reason for the Labour administration pushing ahead with this review when six months ago it had a completely different position as contained in page 3078 of the Minutes?

The SNP is not opposed to achieving Best Value in the authority. We are opposed to the way in which this is being done. Satisfactory answers are required to the above questions before agreement can be reached."

On a vote being taken, 8 Members voted for the Amendment and 12 for the Motion which was accordingly carried.

MATTERS ARISING OUTWITH DELEGATED POWERS FOR RATIFICATION

Housing Committee - 5 August 1998

(a) Housing Revenue Account Surplus 1997/98 (volume page 3656 refers)

The following decision of the Committee was submitted and approved;

"West Dunbartonshire Council supports the proposals for additional expenditure contained in the report from the Director of Social Work and Housing. In particular, the extra investment on repairs and additional staffing will make a further contribution to tackling the problems of void houses.

The policy of the Council has been to reduce rent increases to the minimum and the Housing Committee welcomes the proposals that rent increases for the next year be further reduced. This Committee therefore agrees that the target will be a nil increase. Furthermore the Council, while supporting prudent management of the HRA, believe that more should be done to find additional resources for improvement to the quality of life of our tenants, especially for measures that improve the safety and security of vulnerable people.

The Committee therefore instructs the Director of Social Work and Housing to update the financial position at the September Committee, to look for additional savings, and to bring forward draft proposals for further expenditure targeted at the following priorities:-

Security lighting (targeted programme for elderly, disabled and vulnerable tenants).

Fencing (increase to current budget provision).

Security chains and spy holes (targeted programme for elderly, disabled and vulnerable tenants).

Aids and adaptations (increase to current budget provision for elderly and disabled tenants."

"In accordance with the decision of Council on 24 June, Councillors White and Mackechnie have met with the Chief Executive and Depute Chief Executive and Solicitor to the Council.

Agreement has been reached that the Standards Committee will have at least 2 independent persons of recognised standing in the community as members. Such persons will not have any known political affiliation. The political composition of the Committee will broadly reflect the balance of membership of the Council as a whole.

It is anticipated that the Committee will be given an investigative role covering all matters concerning the conduct of elected Members except those areas where other statutory procedures are appropriate, for example, investigations by the Ombudsman, Accounts Commission etc. In addition it is anticipated that the Committee will be given the power to recommend disciplinary action within the existing legal framework.

The Council's Monitoring Officer will ensure that the investigations are carried out on behalf of the Council. Given the importance of the Committee, the Chief Executive will be the principal adviser to the Committee.

The remit and the processes and procedures of the Committee are such that further meetings will be necessary to deal with all of these important issues. A Code of Conduct for all employees has already been drafted by the Chief Executive and is under consideration and will be the subject of consultation shortly. This Code will be implemented as soon as possible.

It is expected that a full report with detailed proposals on the Standards Committee and the procedures and processes for its operation should be available to the September Council meeting.
