ANALYSIS FOR VARIANCES OVER £50,000

APPENDIX 2

MONTH END DATE 31/08/2023
PERIOD 5

Budget Details		Variance Analysis				
Subjective Analysis		Budget	Forecast Spend	forecast Variance	RAG Status	
		£000	£000	£000	%	
EMPLOYEE COSTS		7,669	7,961	292	4%	↓
Subjective Description						
This budget covers all employees charged directly to the HRA including caretakers.						
Variance Narrative						
Main Issues	This adverse variance is mainly due to additional posts being approved, after time of budget setting to meet the demands of the service. In addition to this , the pay award for 2324 is expected to be higher than the budgeted 4%.					
Mitigating Action	Managers will continue to consider ways to keep staffing costs down including considering each vacancy as it arises re need / urgency to fill.					
Anticipated Outcome	A year end overspend is anticipated

		£000	£000	£000	%	
PROPERTY COSTS		2,377	2,084	(293)	-12%	↑
Subjective Description						
This budget covers electricity, gas, rates, rents, cleaning and insurance costs.						
Variance Narrative						
Main Issues	A favourable variance is expected due to the assumption that office accommodation and utility costs will be similar to last year which is lower than anticipated at time of budget setting, resulting in a favourable variance.					
Mitigating Action	No mitigating action is required.					
Anticipated Outcome	A year end underspend is anticipated					
Budget Details		Variance Analysis				
Subjective Analysis		Budget	Forecast Spend	forecast Variance	RAG Status	
		£000	£000	£000	%	
SUPPORT SERVICES		2,720	2,603	(117)	-4%	↑
Subjective Description						
This budget covers central support recharges to the HRA						
Variance Narrative						
Main Issues	A favourable variance is expected with the assumption that the 2023/24 forecast outturn for support services is expected to be in line with the 2022/23 outturn adjusted for pay uplifts etc. This charge is calculated each year end based on HRA's percentage usage of the total cost of WDC support services. The 2023/24 HRA budget was set before this 2022/23 outturn was known so was based on 2021/22 charge which was higher.					
Mitigating Action	No mitigating action is required.					
Anticipated Outcome	A year end underspend is anticipated					
Budget Details		Variance Analysis				
Subjective Analysis		Budget	Forecast Spend	forecast Variance	RAG Status	
		£000	£000	£000	%	
REPAIRS & MAINTENANCE		16,257	19,797	3,540	22%	↓
Service Description						
This budget covers all repair and maintenance expenditure to houses and lockups						
Variance Narrative						
Main Issues	High volume of jobs and inflationary increases in materials and labour have resulted in the budget being insufficient to meet current demand. There was a large numbers of voids at start of financial year. Void numbers have now significantly reduced therefore it is expected costs will start to reduce in this area.					
Mitigating Action	There are uncontrollable costs, such as materials and inflation as well as the demand for repairs which continues to increase. However as we continue to progress with the building services improvement plan, we expect costs to reduce particularly in relation to void houses.					
Anticipated Outcome	A year end overspend is anticipated

BAD DEBT PROVISION		1,089	960	(129)	-12% ↑
Service Description					
This budget allows for the provision for bad and doubtful debts to be maintained at an appropriate level					
Variance Narrative					
Main Issues	The Bad Debt Provision expected to be required for 2023/24 is less than estimated at time of budget setting, resulting in a favourable variance. This assumes that the provision required in 2023/24 will be similar to the 2022/23 provision.				
Mitigating Action	No mitigating action is required.				
Anticipated Outcome	A year end underspend is anticipated				

Budget Details		Variance Analysis			
Subjective Analysis		Budget	Forecast Spend	forecast Variance	RAG Status
		£000	£000	£000	%
VOID LOSS		1,261	1,454	193	15% ↓
Service Description					
This budget covers the rents lost on void houses and lockups and the cost of council tax on void properties.					
Variance Narrative					
Main Issues	The main reason for the projected adverse variance relates to the number of void properties being higher than expected at time of budget setting. The budget was set on the assumption that backlogs following COVID delays in getting voids turned around would be resolved however the numbers continued to be high at the beginning of this financial year. They have now lowered considerably				
Mitigating Action	A void working group has been reviewing the issues and have been implementing actions and working with Housing Maintenance managers to improve the situation and it is expected that the void figures will continue to decrease over the next few months.				
Anticipated Outcome	A year end overspend is anticipated
