

West Dunbartonshire Local Development Plan (LDP3)

Draft Development Plan Scheme and Participation Statement

September 2023

Development Plan Scheme

Introduction

Thank you for your interest in West Dunbartonshire's Development Plan.

This draft Development Plan Scheme explains what a Development Plan is. It sets out what Development Plans are currently active in West Dunbartonshire and provides an estimated timeline for the preparation of a new Local Development Plan for the West Dunbartonshire planning authority area. It includes a Participation Statement which sets out how the planning authority (part of the Council) will involve the community and other stakeholders in the preparation of the new Local Development Plan.

This draft version of the Development Plan Scheme has been published so that you can comment on the estimated timeline for the preparation of the new Local Development Plan and also comment on how participation in the preparation of the Plan can best be achieved. It would also be helpful to have your views on whether the purpose of this document and its content is clear. For this reason there are survey questions included throughout the document that we would welcome your comments on.

What is the Development Plan?

The purpose of the planning system is to manage development and the use of land in the long term public interest. Development and land use in Scotland is "plan led", making the Development Plan an important document for decision making. It is a statutory plan used by planning authorities to make decisions about what development takes place and how land is used in their area.

There are two main parts of the Development Plan. The first is the National Planning Framework. This is prepared by the Scottish Government, who formally adopted the Fourth National Planning Framework (NPF4) in February 2023. NPF4 contains a spatial strategy which highlights development areas and types that are of national importance. It also contains a set of policies used by planning authorities to make planning decisions.

The second part of the Development Plan is the Local Development Plan, prepared by planning authorities. A Local Development Plan sets out how places will change, importantly identifying where and what development should and should not happen. It is a more detailed and specific plan for a local area which identifies infrastructure needs, allocates land for development, or for protection from inappropriate development. Local Development Plans can also contain policies which add greater detail or local context to policies in NPF4 or to address issues not addressed by NPF4.

Question 1 – does this section clearly explain what the Development Plan is? If not, how could it be improved?

Current Development Plans and Planning Guidance covering West Dunbartonshire

The West Dunbartonshire Council area is covered by two different planning authorities. The West Dunbartonshire Council planning authority area covers all of West Dunbartonshire with the exception of that area within the Loch Lomond and the Trossachs National Park, for which the Park Authority is the planning authority. The Park Authority prepares its own Local Development Plan and Development Plan Scheme which you can read more about at <https://www.lochlomond-trossachs.org/planning/planning-guidance/>.

<insert map of planning authority areas>

West Dunbartonshire's Development Plan consists of NPF4¹ and the 'West Dunbartonshire Local Plan (2010)'². In addition, the Council also uses the Proposed West Dunbartonshire Local Development Plan (2020, as modified) as a material consideration in planning decisions, but as it was not adopted it is not a part of the statutory Development Plan.

The Council has a number of planning guidance documents relating to specific topics or places. These do not form part of the development plan but do form part of the decision-making process for planning application when relevant. A list of current planning guidance documents is set out in Appendix 1.

Question 2 – does this question clearly explain the current Development Plan and Planning Guidance coverage in West Dunbartonshire?

Preparing a new Local Development Plan

The Council has commenced preparation of a new Local Development Plan. This will be a 'new style' Local Development Plan, which will be prepared differently and have a different format, following changes introduced by the Planning (Scotland) Act 2019. The National Planning Framework (NPF4) now contains the detailed policy framework that was previously set out in old style local

development plans. New style local development plans are expected to be place-based, people-centred and delivery-focused. With regard to format, this means that local development plans are expected to be place-based, visual plans with the inclusion of a clear spatial strategy, and a collection of maps, development briefs and masterplans, instead of lengthy written text and policy. Plans are to be prepared collaboratively with communities and other stakeholders, with people with protected characteristics given particular support to engage in the plan preparation process.

The preparation of the new Plan will follow statutory processes set out in the Planning Act and associated Regulations and Guidance. The key stages are:

Development Plan Scheme including Participation Statement – this document is produced annually and acts as a communication tool for letting stakeholders know when and how they can get involved in the local development plan process keep them informed of progress. It sets out the timetable for the preparation of the local development plan and what is involved at each stage of the process. The Participation Statement part of the document sets out how stakeholders are to be involved in the preparation of the local development plan. It is to include targeted methods to reach under-represented groups, help to make public participation inclusive, ensure that wider public engagement directly feeds into the preparation of the local development plan, and promote proactive engagement at all stages of the plan's preparation.

Evidence Report – the purpose of the Evidence Report is to support the quality and effectiveness of the Local Development Plan. Its aim is to gather and use evidence to clearly inform what to plan for before the Proposed Plan looks at where development should take place. Stakeholders' views are to be sought when preparing the Evidence Report.

Gate Check – the assessment of the Evidence Report by a Directorate and Environmental Appeals Reporter is known as the Gate Check. The Reporter can decide that there is sufficient information and the planning authority can move to prepare its Proposed Plan, or the Reporter may consider there is not sufficient information and provide recommendations for improving the Evidence Report. The Gate Check also provides an opportunity for the Reporter to consider and attempt to resolve disputes that may exist about the evidence submitted. The aim of the Gate Check is to reduce the level of debate at the Examination stage of the plan preparation process and made for a better evidence-led plan.

Proposed Plan – the Proposed Plan identifies where new development should take place and where it should not and articulates the ambitions and priorities for the future development of the Plan area. The preparation of the proposed Plan is to be informed by community engagement and a wide range of other policy and strategy documents. The Scottish Government guidance sets out

requirements in relation to the form and content of the Proposed Plan. The Proposed Plan is published for consultation, after which Proposed Plans can be modified.

Delivery Programme – the Delivery Programme sets out how an authority proposes to implement its Local Development Plan. A proposed Delivery Programme must be published with the Proposed Plan. The Delivery Programme is a corporate document, which can influence the authority’s financial investments, and support delivery of the Plan’s policies and proposals to achieve Council priorities. It is to be reviewed and renewed at least every two years.

Examination – the Examination is the opportunity for independent consideration on any issues raised during the formal consultation on the Proposed Plan that have not been resolved through modifications. The Examination will be undertaken by a Reporter from the Directorate of Planning and Environmental Appeals. The Examination will consider unresolved issues following consultation on the Proposed Plan and also the consultation and involvement of the public in the preparation of the Plan. Following the Examination, the Reporter will prepare a report setting out reasons for their conclusions and recommendations, including modifications to the Plan.

Adoption – adoption is the final stage in the preparation of the Plan and occurs after the Council has received and considered the Examination report and any recommendations and modifications it proposes.

Question 3 – does this section clearly explain the key stages in the preparation of a new Local Development Plan?

The estimated timetable for the preparation of the new Local Development Plan is set out below. Legislation requires for this to be set out in financial year quarters but the Council has included estimated months to ease understanding of the timetable.

Action	Estimated date
Publication of finalised Development Plan Scheme and Participation Statement	Quarter 3, 2023/24 (December 2023)
Publication of Evidence Report and submission for Gatecheck	Quarter 3, 2024/25 (December 2024)
Publication of Proposed Plan and Draft Delivery Programme	Quarter 4, 2025/26 (January 2026)
Submission of Proposed Plan to the Scottish Ministers for Examination	Quarter 3, 2026/27 (October 2026)

Expected adoption of Local Development Plan	Quarter 2, 2027/28 (September 2027)
---	-------------------------------------

Question 4 – does the timeline for the preparation of the new Local Development Plan seem reasonable?

The preparation of the new Local Development Plan will be supported and informed by a number of assessment documents that will be concurrently prepared. These are:

- Equalities Impact Assessment
- Public Sector Equality Duty Assessment
- Fairer Scotland Duty Assessment
- Strategic Environmental Assessment
- Child Rights and Wellbeing Impact Assessment
- Habitat Regulations Appraisal

Other Plans and Strategies

The Planning (Scotland) Act 2019 introduced the requirement for a number of other plan and strategy documents to inform and improve the planning system in Scotland. These are:

Local Place Plans – these are community-led plans focused on the development and use of land in the area covered by the Plan. West Dunbartonshire Council will issue an invitation to communities to prepare Local Place Plans and will set out what assistance the Council can offer with their preparation. Once prepared, the Council will validate properly-prepared Local Place Plans and take them into account when preparing the Local Development Plan.

Regional Spatial Strategies – are to be produced by a planning authority, or jointly by a group of planning authorities, and will set out a long-term spatial strategy in respect of the strategic development of the area it covers. The West Dunbartonshire planning authority area is likely to be included within a Regional Spatial Strategy covering the Glasgow City-Region area.

Local Place Plans and Regional Spatial Strategies will not be part of the Development Plan but all of these documents will inform the content of the others.

<insert diagram>

Open Space Strategy – planning authorities are required to prepare a strategy setting out a strategic framework of policies and proposals for the development, maintenance and use of green infrastructure, including open spaces and green networks. The strategy is to contain an audit of existing open space provision and an assessment of current and future requirements. The Council will consult on the findings of its audit and the Open Space Strategy

Play Sufficiency Assessment – planning authorities are required to assess the sufficiency of play opportunities for children in preparing the Evidence Report for the Local Development Plan. The Council will consult on its Play Sufficiency Assessment.

As at August 2023, West Dunbartonshire Council has commenced its open space audit including the noting of locations of play opportunities.

Forestry and Woodland Strategy – planning authorities are to prepare a strategy which identifies woodlands of high nature conservation, and sets policies and proposals for the development of forestry and woodland, and the protection, enhancement and expansion of woodlands. The Council will consult on its Forestry and Woodland Strategy.

Question 5 – Does this section clearly explain the other plans and strategies associated with the Local Development Plan?

Participation Statement

Introduction

The Scottish Government intends the preparation of the Local Development Plan to be a collaborative process. Local Development Plans are expected to be place based, people centred and delivery focussed. The involvement of all stakeholders within the planning process will be required to achieve this, including:

- local communities;
- services within the council;
- service providers, infrastructure providers and government agencies outside of the council (sometimes referred to as Key Agencies);
- businesses and other organisations; and
- developers and land and property owners.

The Participation Statement sets out how we will achieve this by identifying who we will include, how we will keep them informed, how they will be included, what methods we will use to include people, and when engagement will take place.

Who we will include

Legislation requires planning authorities to involve the public at large in preparing a Local Development Plan, however there are also specific groups that planning authorities need to include, which are:

- children and young people (those under the age of 25);
- people with disabilities;
- Gypsies and Travellers; and
- community councils
-

There are other groups that guidance states should be given support to engage with the Local Development Plan process including people with protected characteristics (including race, age, sex, and sexual orientation), as well as people from a range of socio-economic backgrounds.

Children and Young People

There will be three main ways we will include children and young people. We will:

- engage with the Youth Parliament Representatives for the West Dunbartonshire Planning Area,
- engage with the West Dunbartonshire Youth Council
- engage with schools (including early education, primary, secondary, and special needs schools).

We will also reach out to known youth groups in the area and ask if they are interested in engaging in the Local Development Plan process

People with disabilities

There are a number of existing disability groups known to the council we will reach out to and request their input to the Local Development Plan process.

We will also consider the barriers to engaging with people with disabilities and how to overcome them, to provide opportunities to fully engage. This will include providing information in an accessible format.

Gypsies and Travellers

We will approach existing contacts we have for Gypsy and Traveller communities to discuss their needs.

Community Councils

We will use existing channels of communications to contact active community councils.

In areas where there are no active community councils we will seek the views of other active community groups in these areas

Question 6 – are there any other specific groups that we should involve or target our consultation at?

How we will keep you informed

We will keep the public up to date by publishing regular updates on the plan preparation milestones listed in the Local Development Plan Scheme. Updates will be published to the Council website, posted on social media, and circulated via a newsletter for those who wish to sign up to this.

Some stages of plan preparation require us to advertise in local newspapers, including

- inviting communities to make Local Place Plans
- publishing the Proposed Local Development Plan
- advertise the examination of the Local Development Plan
- publishing a report of modifications to the Plan

- the adoption of the Local Development Plan

We will make key documents available in libraries at the appropriate times, including the Evidence Report and Proposed Local Development Plan.

How we will involve and collaborate with you

We will use a variety of methods to engage with specific groups as well as the public at large.

We will hold public consultations to collect ideas for and views on proposals within the Local Development Plan, using online survey tools and public events.

A survey of the Citizens Panel will collect information about places across West Dunbartonshire.

We will hold a 'Call for Ideas' consultation for communities, developers and landowners to identify sites for development.

We will work directly with Community Councils and other local community groups to identify key issues and opportunities for their local area, and to work together on development briefs and masterplans.

One of the most direct ways communities can influence the plan is by making a Local Place Plan. We will invite communities to make Local Place Plans. The contents of Local Place Plans are decided by their community, and once completed and registered are incorporated in the Local Development Plan.

The tools, materials, and methods we will use to involve you

A variety of tools and materials will be used to reach as many people as possible and to reduce barriers to participation as far as possible.

Published information and the proposed plan will be provided in accessible formats. This will include information published online and in physical information left in public places.

We will collect ideas and views using the Councils online survey platform 'Survey 123'.

The place standard tool will help us to collect and focus views about a place. The tool will be used in a variety of formats, including: in online surveys; at meetings with specific groups, community councils, and community organisations; and at consultation events. Different versions of the tool will be used in specific context, such as the version for children and young people.

Question 7 – are there any consultation approaches/techniques you would suggest we should use to improve engagement in the Local Development Plan process?

The table below sets out the different stages of the Local Development Plan and the engagement activity that will be undertaken at each stage. It has been informed by the Scottish Government consultation draft guidance on 'Effective Community Engagement in Local Development Planning' (May 2023) and is based on the following levels of engagement: inform; consult; involve; collaborate; and empower.

Local Development Plan Preparation Stage		Activity	Timescale	Engagement Activity
Evidence Gathering	Early engagement and data collection	Publication of Draft Development Plan Scheme and Participation Statement	September> November 2023	<p><i>Inform</i> participants (existing and potential of the publication of the Draft Development Plan Scheme Participation Statement and <i>involve</i> people and organisations by seeking and having regard to their views on the document.</p> <p>Publish document on the Council website and make copies of the document available in the Council headquarters and libraries. 	Monitoring and Delivery	Publish information on monitoring and delivery	Ongoing	<p>Publish an updated Delivery Programme at least every two years and make available on Council website and local public libraries.</p> <p>Publish annual land use survey information on Council website.</p>

Question 8 – is the above table helpful in setting out the Local Development Plan process and how we will engage at each stage?

Impact assessments

The preparation of the Local Development Plan is to be supported and informed by a number of assessment documents. These documents have engagement requirements, which are summarised in the table below which has been lifted from the consultation draft Scottish Government guidance on Effective Community Engagement in Local Development Planning.

Assessment	Level	Engagement needs and timing
Strategic Environmental Assessment	Inform Consult	<p>Legal requirement for 'early and effective' public engagement. Engagement is focused on the Environmental Report consultation, but earlier engagement is recommended.</p> <p>A Post Adoption Statement is prepared, published and advertised to inform people about how the assessment findings and comments received on the proposed plan and Environmental Report have been taken into account.</p>
Habitat Regulations Appraisal	Inform	No requirement for public engagement. Report to be published at the proposed plan stage to inform people of the appraisal.
Public Sector Equality Duty Assessment	Inform Involve	<p>The timing of the publication of the assessment could usefully be set out in the Development Plan Scheme.</p> <p>Proportionate involvement is needed throughout the process, from the early preparation stage to its delivery.</p> <p>The planning authority should publish the assessment findings on their website to inform stakeholders about it.</p> <p>Legally the results should be published within a reasonable period, and guidance suggests this should be as soon as possible after the decision to implement (adopt) the policy is taken.</p>
Fairer Scotland Duty Assessment	Inform Involve	<p>It is important to involve relevant communities through the stages of assessment.</p> <p>The assessment should be published to inform people about how socio-economic disadvantage is being considered.</p>

Child Rights and Wellbeing Impact Assessment	Inform Consult Involve	<p>Opportunities to involve people may arise at both the evidence gathering and proposed plan stages.</p> <p>The assessment requires an explanation of consultation with stakeholders - including children and young people.</p> <p>Publication informs people of the outcome of the assessment.</p>
