Strategic Risk Report

Generated on: 12 July 2023

funding	ignificant fi reductions ons from Sc nent	; /	It is expected that the Council will continue to be faced with significant real term funding reductions from the Scottish Government settlement. This is based on recent settlements, the March 2022 Resource Spending Review which states that Council funding will remain as 'flat cash' (at current 2022/23 levels) until 2025/26 with a £100m added in 2026/27. This coincides with a period where costs are continuing to rise in relation to social care, significant inflationary increases impacting all services, the impact of increases in the bank interest rate on the cost of borrowing and pay award pressures linked to inflation. Whilst there are discussions between the Scottish Government and Local Government on a new deal which may reduce the extent that funding is ring fenced the reality of what this will look like is still to be seen and there is still considerable ring fencing in place which significantly restricts how the Council can most effectively use the funds made available to it.

Potential Ef	fect	Potential for tensions to develop with residents and local community groups Reputational damage to council services Degradation of trust in service provision A failure of strong partnerships could impact on the Councils obligations under Community Empowerment Act						

inspections Informed and engaged residents participating in cons	sultation activity							
Council's reputation is adversely affected through a failed partnership arrangement Lack of appropriate staff development / skills may be lacking to support new model of service delivery inequity of engagement across the partnership on key local issues Council seen as unresponsive to community if feedback from engagement not acted upon Apathy within communities leads to little or no engagement Some community groups feel their voices are								
Align the Council's strategic plan with the Local Outcome Improvement Plan (LOIP) Ensure that partners have signed up to deliver on the outcomes and targets set in the LOIP Develop data sharing protocols with partner agencies Participate in reform agenda as it impacts on Council area Ensure robust mechanisms for public feedback (Embedding the Strategic Engagement Framework) Annual budget consultation events Citizens Panel								
Citizens & Communities & Partnerships were previously two separate risks but have been combined for the next 5 year Strategic Plan. Whilst the Community Planning Partnership has been managed under a shared service agreement, it is well established with strong partnership working arrangements in place reducing likelihood of this risk being realised. This approach will continue with the Communities team leading on West Dunbartonshire Community Planning support from April 23. It should be noted that the Communities Team is currently working through the restructure in response to savings option HE04. This is not likely to conclude until August at the earliest and may have an impact on service delivery. Development of the Community Empowerment Strategy priority projects including a Communication strategy aimed at a community led transition from the Community Alliance. While progress has been made there remains some challenges to people actively wanting to participate within CPWD structures. Work will continue in this area and with Community Planning partners. We continue to gather resident feedback and we ensure that key information is communicated through a variety of media channels including online, social media and publications such as Housing News. Please note that new actions have been added from the 23/24 Delivery Plan and milestone dates have not

	 Road Condition SPI Customer perceptions of service delivery Investment levels in upkeep and improvement of asset base and facilities Asset user satisfaction -Operating costs and savings Local Government Benchmarking Framework (LGBF) Association for Public Service Excellence (APSE) Waste Managers Network Group 							
Risk Factors	 Adequacy of funding available to improve asset base Adequacy of funding to maintain asset base Adequacy of staff resources allocated to the area Council assets deemed to be unfit for existing purpose Economic conditions may reduce level of potential capital receipts Over one third of the road network is in need of repair and the current long term capital funding only sustains a steady state condition of the road network Increased public liability claims due to poor condition of roads network Increase public liability claims due to poor condition of footpaths and roads which are not part of our adopted network. Poor customer engagement for recycling, deposit return scheme, refuse transfer station Financial challenges Budget Sensitivity Analysis (fuel costs, waste refuse disposal tonnage costs, bitumen availability and costs) 							
Internal Controls	 Strategic Asset Management Group Corporate Asset Management Strategy (scheduled refresh in 2nd half of 2021/22 year) Learning Estate Strategy Capital Investment Team Capital project meetings are carried out monthly in addition to project specific meetings. Capital plan Roads and Lighting Asset Implementation Plan Fleet Asset Implementation Plan 							
Latest Note	-Equality Outcomes Service continues to provide full service, monitoring in place to ensure any adverse issues are highlighted and appropriate actions taken. No change to Risk Matrix. Please note that new actions have been added from the 23/24 Delivery Plan and milestone dates have not passed hence the 0% progress shown below. However work to progress these actions and respective milestones is underway.							
 -Enhance reputation of Council -Ensure services are fit for the future and are compliant with legislation changes -Estate, assets and service delivery (e.g. office and depot rationalisation projects, roads upgrade programme, vehicle replacement programme, greenspace upgrade projects) - Secure external funding for development of assets (e.g. EC, lottery, Historic and Environment Scotland) - The continued implementation of the energy efficient street lighting project will both improve the asset and reduce costs significantly through reduced maintenance, energy consumption and carbon output. - The effect of these energy efficiencies has demonstrated that significant savings and environmental benefit can be achieved through the utilisation of developing technology.

SR 10 Failure to maintain Housing Stock			The risk that Council's Housing Stock are not fully fit for purpose with consequent adverse impact on our ability to deliver efficient and effective housing for Council tenants.					
Current Risk Matrix	Last Review Date	Current Rating	Target Risk Matrix	Target Date	Target Rating	Assigned To		
Impact	04-Jul- 2023	4	Marct	31-Mar-2027	4	Alan Young		
Potential Effect	otential Effect - Housing stock is not utilised in the most effective and efficient manner - Service cannot be properly delivered to the satisfaction of service users - Increase in reactive maintenance costs/ demand/ volume - Housing stock in poor condition - Housing stock fail to meet relevant standards - Non-compliance with Scottish Housing Quality Standard							
Measures of Impact	- Condition surveys - Suitability surveys - Customer percentions of service delivery							
Risk Factors	 Adequacy of funding available to improve housing stock Adequacy of staff resources allocated to the management of housing stock Housing stock deemed to be unfit for existing purpose Increasing issues relating to supply of labour and materials, due to increased energy, transport and raw material costs, impacted on supply chains, and third parties and our ability to carry out works within budget and on time. 							
Internal Controls	 Housing Capital Investment Programme (refreshed and delivered annually) Housing Capital Improvements WDC Local Housing Strategy 2021-25 The Housing Capital Investment Team The Planned Maintenance Section Housing Asset Management Strategy Detailed asset database that shows relevant information on a property by property basis in relation to HRA properties. More Homes Better Home Project Board. Telephone Survey feedback Fit for future reviews Other benchmarking/ feedback Climate Change Strategy 							
Latest Note	No change to risk score, programme for investment and upgrades to council housing continues into 23-24 and a further five year programme to 27-28.							
 Risk Opportunity -Enhance reputation of Council by being able to improve Council housing stock -Estate, assets and service delivery (housing investment programme) -Improved satisfaction from tenants - The effect of these energy efficiencies has demonstrated that significant savings and environmental benefit can be achieved through the utilisation of developing technology. -Improvement of SHQS & EESSH compliance performance and points, and reduced SHQS abeyance numbers through the strategic planning and management of housing assets. - Increase in environmental improvements including bin stores - Increase in internal (e.g kitchens, bathrooms, showers, special needs adaptations, central heating, smoke detectors, windows and doors) and external updates (e.g new roof coverings, external insulated render and tenement structural refurbishments) - Increase in number of New Build Homes as part of the Strategic Housing Investment Programme (SHIP) -Achieve energy efficiency standard for social housing

	SR 11 Inability to reduce carbon footprint in line with targets			The risk that the Council will be unable to achieve net zero emissions by 2045, both in relation to mitigating carbon emissions and adapting to the impacts of climate change. Net zero refers to achieving an overall balance between emissions produced and emissions taken out of the atmosphere. This target has been developed in a way that mirrors the emission reduction trajectory set by the Scottish Government in light of the Climate Emergency.				
Current F Matrix	Risk	Last Review Date	Current Rating	Target Risk Matrix	Target Date	Target Rating	Assigned To	
	D	11-Jul- 2023	4	mpact	31-Mar-2027	2	Gillian McNamara	
Potential	Effect	 Failure to meet mandatory national and international policy drivers Failure to meet duties placed on Council by The Climate Change (Scotland) Act 2009 Failure to meet duties placed on Council by The Climate Change (Emissions Reduction Targets) (Scotland) Act 2019 Failure to meet duties placed on the Council by The Heat Networks (Scotland) Act 2021 and Local Heat and Energy Efficiency Strategies (Scotland) Order 2022. Failure to meet the provisions set out in Waste (Scotland) Regulations 2012 which help Scotland move toward the objectives and targets set out in the Scotland's Zero Waste Plan to help transition toward a circular economy. Reputational damage. Financial burden of responding to adverse events such as extreme weather (including, but not limited to, flooding, heat waves, wind driven storm events, etc.) resulting in action. Impacts to Council operations and supply chains as a result of adverse climate/extreme weather events. This also impacts residents, local businesses and wider infrastructure across West Dunbartonshire. Financial burden on WDC from increasing energy prices in light of current energy and economic crises'. Energy Efficiency works on our own estate must increase to counteract these impacts. 						
Measures Impact	s of	 Improving organisational resilience against the impacts of climate change. Improving local biodiversity through planting of native trees and bulbs in WDC WDC Waste Services Citizens Panel Survey regarding attitudes towards recycling improving The extension of the Queens Quay District Heating Network to NHS Golden Jubilee Hospital, Social Housing, NHS Health Centre, Council buildings and further connections as per scope. Inspiring change through including climate change learning in staff induction, training, team meetings, etc. Uptake in e-learning modules on climate change. Uptake in staff carrying out Sustainable Procurement assessments for tenders. Ensuring climate change and sustainability metrics are included in tenders for suppliers/contractors/etc. (such as carbon reduction measures) so they are being measured for accountability for the impacts they have on the environment Management of service areas setting climate change targets for their operations and staff. The uptake of Green Champion roles, which help normalise Climate Change and Sustainability, practices across the Council. Uptake in sustainable travel such as walking cycling and public transport 						
Risk Fact	ors:	 Funding availability – delivery of actions to mitigate will require resources, capital works and investment by the Council- e.g. enhanced energy measures, and heating and renewables projects in both domestic and non-domestic building assets Budget stress – notably due to energy and economic crisis, meaning it's more difficult for Council to set aside budget to deliver on Climate Change and Net Zero projects and actions. Funding approach – a combination of internal and external funding sources will be need to delivery climate action at scale. Short term funding mechanisms such as annual payback of Council expenditure presents difficulties for delivering long-term projects. Climate Change investments also need to take account of whole-life costs including reduced maintenance costs and avoided Adaptation costs. Internal capacity – limited staff time and availability, largely due to reduced Council budgets, further impacted by Covid19. Communication – both internally (to avoid 'silo' working) and externally (engaging with the public and keeping abreast of local/national/international changes to policy). Economics – some technologies, materials and skills are still very expensive so innovation must progress to enhance the viability of climate actions within the context of the Council's budget constraints. Strategy and planning – all existing and future Council plans should place responding to the climate emergency at their core and ensure integration with other Council services. 						

Internal Controls	 Legislation & Regulatory – the ability to implement some climate actions is constrained at the local level by minimum standards and other restrictions set through legislation and national policy, for example in relation to building regulations, planning and procurement. Public attitudes and behaviours - Changing behaviour of residents, businesses and stakeholders positively and proactively, especially where there are cost implications to the delivery of climate actions. Climate Change Strategy 2021-2026 Action Plan 2021-2026 Climate Change Action Group (CCAG) Pentana Risk Management System – devolved responsibilities of climate change actions/milestones/KPI's to service areas. Scottish Government – Mandatory annual Climate Change Duties Reporting Queens Quay District Heating Network Strategic Environment Assessment (SEA) Air quality monitoring Converting some Council pool fleet to Electric Vehicles (EVs). Climate Ready Clyde (CRC) – a cross-sector initiative funded by fifteen member organisations and supported by the SG. Delivery of a Locale Heat & Energy Efficiency Strategy (LHEES) and delivery plan by December 2023 – which sets out the Council's area-based approach to reducing emissions of heating and energy efficiency improvements to ALL assets across WD. This includes private housing, businesses, etc. which are not owned/operated by WDC. Waste infrastructure and greatly improving approach to how Council and residents reduce, reuse and recycle waste. Notably, taking a Circular Economy approach to waste services and implementing appropriate infrastructure and contracts to do so. 							
Latest Note	Until all carbon emissions data becomes available in October 2023 and analysed, the risk profile will remain the same. Please note that new actions have been added from the 23/24 Delivery Plan and milestone dates have not passed hence the 0% progress shown below. However work to progress these actions and respective milestones is underway.							
Risk Opportunity	Our local environment is protected, enhanced and valued resulting in:-Our public spaces are attractive and welcoming-Our residents feels pride in their local neighbourhood-The percentage of household waste sent for reuse, recycling and composting has increased resultingin reduction in the percentage that was being landfilledThe percentage of council land which promotes diversity of habitat and species has increasedOur resources are used in an environmentally sustainable way-Increase in the percentage of businesses taking action to reduce their carbon impact-Reduction in CO2 emissions under the Council's influence-Reduction in West Dunbartonshire Area-Wide emissions as per requirements of the climate change(Scotland) actResidents actively involved in tackling climate change and protecting the environment-The conomy and infrastructure become more low carbon and environmentally-friendlyOur neighbourhoods are sustainable and attractiveIncreased investment in our housing stock including improving energy efficiency-Housing developments are meeting the needs of our changing population-The quality of neighbourhoods has improved-Our roads and transport network are maintained and they promote safe travel routes
