The main points covered in the presentation were:-

- Recycling – Performance to date;
- Zero Waste/Landfill Allowance Implications;
- Landfill Allowance Scheme (Scotland) Regulations;
- National Waste Strategy/Plan;
- Glasgow and Clyde Valley Area Waste Plan;
- Short term priorities to meet 2010/11/12 targets and proposals to vary the collection schedule for the green, blue and brown bins with the possible addition of adding a food waste collection service to the brown bin service;
- Medium term priorities to meet 2012 targets including proposals to introduce a kerbside collection service of glass to low level homes;
- Longer term priorities 2013/2020 including proposals to work with partners in neighbouring Councils to secure the use of centralized treatment facilities; and
- The Single Outcome Agreement to increase recycling to 40% in 2010, increasing to 50% in 2013.

Following discussion and having heard the officers from Waste and Transport Services in response to members' questions, the Committee agreed:-

- (1) to note that Fairer Scotland Funding would be used to introduce a kerbside mixed glass recycling scheme in December 2009 as a 16 month pilot scheme for 12,000 low level households;
- (2) to note that the vehicles to be used for collection would enable the glass to be sorted at the point of collection;
- (3) to note that officers would respond directly to Councillor Black with information relating to how well West Dunbartonshire Council was performing compared to other local authorities; and
- (4) to note that officers would respond directly to Councillor Millar with information regarding any increase in the incidences of fly-tipping since the introduction of a charge for special uplifts of construction waste from private households and also provide information from other local authorities.

- (4) to note the progress made by the Community Planning Partnership during recent months, particularly:-
 - (a) the formal agreement with the Scottish Government of the Single Outcome Agreement;

- (b) the development of a revised thematic, strategic approach to the use of Fairer Scotland Funding which was ratified at the Council meeting on 30 September 2009;

- (4) to note that there would be a press release in advance of the launch of the Plan and also simple bookmarks would be displayed and available;

Note: Ms Anne MacDougall, Clydebanks Crime Prevention Panel, left the meeting before discussion of the following item.

WEST DUNBARTONSHIRE COMMUNITY DAY 2009

A report was submitted by the Chief Executive containing information on this year's West Dunbartonshire Community Day and making proposals for the future.

The Head of Service - Policy and Performance, was heard in further explanation of the report and in response to members' questions.

Following discussion, the Committee agreed:-

- (1) to note that the acoustics in the Meadow Centre were poor, particularly for people with a hearing impairment;
- (2) that any future events should give more consideration to the timing and locating of music performances;
- (3) to recommend to Council:-
 - (a) that, given the considerable amount of officer time needed to deliver the event, the increasing costs, and the level of public attendance, it was not considered that this provided the best value for money. It is therefore recommended that a review of Community Day be carried out by the middle of 2010 and options drawn up for alternative arrangements;
 - (b) to note that there were a number of alternative opportunities for service providers and community and voluntary groups and projects to interact with the public where much larger numbers of people attend e.g. Fire Station Open Days, Gala Days and other events;
 - (c) to note that the networking opportunity between partners and voluntary and community groups was consistently identified as a key positive output of the Day. This, therefore, should be taken into account in scoping the review process;
 - (d) that, given the partnership nature of the event, it is recommended that consideration be given to subsequent events being carried out via the Community Planning Partnership; and
 - (e) to note that members of the West Dunbartonshire Council Community Day Planning Group were in broad agreement with the above, but that one member asked to emphasise that the Council should adapt, rather than do away with, the event; and
- (4) to note that a report updating the Committee on the outcome of the above would be submitted to a future meeting.
