Police Authority Comments: No Objections

Fire Authority Comments: No Objections

Regulatory Services Comments:

Environment Health

1. Comments were previously provided by Environmental Health to the Planning Section with reference to Planning Application DC09/287 'Change of Use of Church to Restaurant'. A Noise Impact Assessment (NIA) was requested to assess the potential noise impact of the proposed premises on neighbouring residential properties.

A NIA was provided in September 2010 and further information was sought on several issues contained within the NIA in October 2010. No response has yet been received in this regard.

The plans that have now been provided in connection with the provisional premises licence application are different from the plans upon which we provided our original comments to Planning.

The new plans show a dance floor / mezzanine area with sounder and strobe lighting and two outside drinking areas. None of these issues were considered in the original NIA and we would therefore require that the original NIA is updated to take account of these factors.

2. The applicant should contact Environmental Health prior to the installation of any fixtures and fittings to discuss the layout and organisation of food storage and preparation areas of the proposed food business to ensure it will comply with Food Safety legislation and current guidance on cross contamination prevention.

Community Council Comments: N/A

Additional Comments: N/A

Section 50 Certificates:

Planning: Received 14.07.11.
