negative impact on J	particular groups.		
	Needs	Evidence	Impact
Age	Young people need to have access to outdoor public spaces regardless of their social/material status and abilities Need to involve young people in design of spaces	intercultural contact can be of great benefit to both older and younger people Broad support for spaces for young people	The development will help deliver 20 minutes neighbourhood principles. Older people and younger children will be better able to easily access the area
Cross Cutting	All the above areas cross cut to some extent therefore we have considered them as a whole.	All the above areas cross cut to some extent therefore we have considered them as a whole.	The development will help deliver 20 minutes neighbourhood principles
Disability	Disabled people of all ages need to have access to public outdoor and indoors spaces regardless of their social/material status and abilities	Dunbartonshire Access for have been consulted and are supportive of the scheme in its proposed form.	The development will help deliver 20 minutes neighbourhood principles. A more accessible public space, better transport links, more wheel chair friendly, more friendly to people with other physical impairments, more accessible for those with visual impairments.
Social & Economic Impact	The community have a central role to play in shaping the project and their town. The Artizan Shopping centre is vital ecomonic component in the area, the project will help to retain and improve it.	regenerating the heart of the town centre. Consideration will be given to how it could help lower socio economic gaps.	The development will help deliver 20 minutes neighbourhood principles. The proposal informed by discussion with a range of stakeholders, reflects the need to consider how it would contribute to lowering socio- economic gaps. The proposal would help

		During the consultations people indicated that there is a need for improvements, and for creating new public space in the town centre. Making areas	advance the local economy, projecting jobs and providing better infrastructure for future sustainable growth. More accessible
Sex	Women tend to be more involved in care for children and ill or disabled people	wheelchair/scooter, pram and buggy accessible and enhancing road safety is a particular benefit for many women	spaces may particularly benefit women who provide the majority of care for children. May provide a safer open space
Gender Reassign	Public spaces need to be safe and accessible for all people	No evidence there would be any impact	Unlikely to be any differential impact
Health	Physical activity and social interactions are required to improve health and wellbeing of young and older people.	Need for more accessible social spaces where people can meet and participate in activities	The development will help deliver 20 minutes neighbourhood principles
Human Rights	Public spaces need to be safe and accessible for all people	There is no evidence of any threat to Human Rights	Unlikely to be any differential impact
Marriage & Civil Partnership	Public spaces need to be safe and accessible for all people	No evidence that there would be any string effect in terms of this group	Unlikely to be any differential impact
Pregnancy & Maternity	Women tend to be more involved in care for children	Making areas wheelchair/scooter, pram and buggy accessible and enhancing road safety is a particular benefit for many women	More accessible spaces may particularly benefit women who provide the majority of care for children May provide a safer open space
Race	Public spaces need to be safe and accessible for all people	Inclusive spaces where people spend some time provide an opportunity for social interaction between different groups of people. Evidence suggests that peoples attitudes to people from different	The is an opportunity to provide a shared public space.

		groups are more accepting if there is contact	
Religion and Belief	Public spaces need to be safe and accessible for all people	No evidence there would be any impact	Unlikely to be any differential impact
Sexual Orientation	Public spaces need to be safe and accessible for all people	No evidence there would be any impact	Unlikely to be any differential impact

Policy has a negative impact on an equality group,but is still to be implemented, please provide justification for this.

Will the impact of the policy be monitored and reported on an ongoing bases?

Q7 What is you recommendation for this policy?

Intoduce

Please provide a meaningful summary of how you have reached the recommendation

The EIA carried out (number 532) has identified a range of positive impacts for equality groups. There are likely to be significant positive impacts in terms of Health and Socio-Economic Impact. It is hoped that as a result of the project the town centre will become more vibrant and provide wider range of services and facilities for the local residents.
