

### Annual Governance Statement

The Annual Governance Statement explains the Council's governance arrangements as it meets the requirements of the "Code of Practice for Local Authority Accounting in the UK" (the Code) and reports on the effectiveness of its system of internal control, including the reliance placed on the governance frameworks of our partners. It is included within the Council's Financial Statements to assure stakeholders on how the Council directs and controls its functions and how it relates to communities in order to enhance transparency and scrutiny of the Council's activities.

#### Scope of Responsibility

The Council is responsible for ensuring that its business is conducted in accordance with the law and proper standards, and that public money is safeguarded and properly accounted for, and used economically, efficiently and effectively. It also has a statutory duty to make arrangements to secure best value under the Local Government in Scotland Act 2003.

In discharging this overall responsibility, the Council's Elected Members and Corporate Management Team (CMT) are responsible for putting in place proper arrangements for the governance of its affairs and facilitating the effective exercise of its functions, which includes arrangements for the management of risk. The Council has established an arms-length external organisation: West Dunbartonshire Leisure Trust – to deliver leisure services more effectively on the Council's behalf, which reports regularly to Elected Members. From 1 July 2015 the West Dunbartonshire Health and Social Care Partnership was established to continue the development of the integration of social care and health services between the Council and NHS Greater Glasgow and Clyde.

The Council has approved and adopted a Local Code of Corporate Governance ("the Local Code"), which is consistent with the principles of the Chartered Institute of Public Finance and Accountancy (CIPFA) and the Society of Local Authority Chief Executives (SOLACE) Framework: "*Delivering Good Governance in Local Government*". The Local Code evidences the Council's commitment to achieving good governance and demonstrates how it complies with the governance standards recommended by CIPFA. A copy of this Code is available from the Council website at:

<http://www.west-dunbarton.gov.uk/media/4312582/wdc-local-code.pdf>

This statement explains how the Council expects to comply with the Local Code and also meets the Code of Practice on Local Authority Accounting in the UK, which details the requirements for the Annual Governance Statement.

#### The Purpose of the Governance Framework

The governance framework comprises: the systems and processes; and culture and values - by which the Council is directed and controlled and through which it accounts to and engages with communities. It enables the Council to monitor the achievement of the strategic objectives set out in the Strategic Plan. It enables the Council to consider whether those objectives have led to the delivery of appropriate and value for money services.

The Council has put in place a system of internal control designed to manage risk to a reasonable level. Internal controls cannot eliminate risk of failure to achieve policies, aims and objectives and can therefore only provide reasonable and not absolute assurance of effectiveness. The system of internal control is based on an ongoing process designed to identify and prioritise the risks to the achievement of the Council's policies, aims and objectives, to evaluate the likelihood of those risks being realised and the impact should they be realised, and to manage them efficiently, effectively and economically.

The governance framework has been in place at the Council for the year ended 31 March 2024 and up to the date of the approval of the Statement of Accounts.

### The Governance Framework

The main features of our governance arrangements are described in the Local Code but are summarised below:

- The overarching strategic vision and objectives of the Council are detailed in the Strategic Plan 2022/27, which sets out the key priorities of the Council and key outcomes the Council is committed to delivering with its partners, as set out in the Local Outcome Improvement Plan.
- Services are able to demonstrate how their own activities link to the Council's vision and priorities through their Delivery Plans. Performance management and monitoring of service delivery is reported through service committees regularly. The CMT monitors performance information regularly. The Council regularly publishes information about its performance.
- The West Dunbartonshire Community Alliance, which supports Community Planning West Dunbartonshire, represents the views of community organisations, communities of interest and geographical communities. In addition the Council has an Engaging Communities Framework in place which sets out our approach to engaging with citizens, community organisations and stakeholders. Consultation on the future vision and activities of the partnership is undertaken in a range of ways, including seeking the views of the Alliance and through specific service consultations and the Council actively engages with its partners through community planning arrangements.
- The Council has adopted a Code of Conduct and associated employment policies for its employees. Elected members adhere to the nationally prescribed Code of Conduct for Members in a localised format. In addition, the Council has in place a protocol on member/officer relations and an inter-party protocol.
- The Council operates within an established procedural framework which incorporates a Scheme of Delegation, Standing Orders and Financial Regulations. These describe the roles and responsibilities of Elected Members and officers and are subject to regular review. The Council facilitates policy and decision making through the agreed committee structure.
- Responsibility for maintaining and operating an effective system of internal financial control rests with the Council's Chief Officer Resources as Section 95 Officer. The system of internal financial control is based on a framework of regular management information, the Financial Regulations, administrative procedures (including separation of duties), management and supervision, and a system of delegation and accountability. Development and maintenance of the system is undertaken by managers within the Council.
- The functions of the Audit Committee are undertaken as identified in CIPFA Guidance - Audit Committees: Practical Guidance for Local Authorities.
- The Council's approach to risk management is set out in the Risk Management Framework. A strategic risk register is in place and an update report on this is regularly submitted to the Corporate Services Committee and Audit Committee. The approach is embedded within the Council's strategic planning and performance management framework with regular reporting of risk management arrangements to service committees.
- Comprehensive arrangements are in place to ensure Elected Members and officers are supported by appropriate training and development.
- The Council has adopted a response that is appropriate for its fraud and corruption risks and commits to maintain its vigilance to tackle fraud in accordance with the Code of Practice on Managing the Risk of Fraud and Corruption.
- The Council continues to assess and monitor ongoing compliance with the CIPFA Financial Management Code.

### Review of Effectiveness

The Council has a responsibility to review, at least annually, the effectiveness of its governance framework including the system of internal financial control. The review of effectiveness of the framework is informed by the work of the CMT which has responsibility for the development, implementation and maintenance of the governance environment, the Chief Internal Auditor's annual report; and reports from the external auditors and other review agencies and inspectorates.

The Council's current Code of Good Governance was approved at the Audit & Performance Review Committee on 8 March 2017. An assessment of the Council's compliance with the Code of Good Governance is supported by a process of self-assessment and assurance certification by Chief Officers and the outcome of this assessment was reported to the Audit Committee on 12 June 2024.

Each Chief Officer was presented with a self-assessment checklist to complete and return as evidence of review of seven key areas of the Council's governance framework which provided assurance for their service areas.

The Audit Committee performs a scrutiny role in relation to the application of the Code of Good Governance and regularly monitors the performance of the Council's Internal Audit service.

In relation to the effectiveness of governance arrangements and systems of internal control for the Council's group entities, the Council places reliance upon the individual bodies' management assurances in relation to the soundness of their systems of internal control.

The Internal Audit service operates in accordance with the Public Sector Internal Audit Standards (PSIAS) 2017 and reports to the Audit Committee. An annual programme of work is determined and undertaken by Internal Audit, approved by the Audit Committee, based upon an established risk based methodology. The Shared Service Manager – Audit & Fraud provides an independent opinion on the adequacy and effectiveness of the Council's System of Internal Financial Control.

The Audit Committee performs a scrutiny role in relation to the application of PSIAS and regularly monitors the performance of the Internal Audit service. The Council's Shared Service Manager – Audit & Fraud (the Council's Chief Internal Auditor) has responsibility for reviewing independently and reporting to the Audit Committee annually, to provide assurance on the adequacy and effectiveness of the code and the extent of compliance with it.

It is our view that the Council has in place a sound system of internal financial control and that appropriate mechanisms are in place to identify areas of weakness. This is corroborated by an annual assurance statement prepared by the Shared Service Manager – Audit & Fraud stating that the overall control environment opinion was "Generally Satisfactory with some improvements needed" such that reasonable assurance can be placed upon the adequacy and effectiveness of the Council's internal control systems. There was one audit which received an overall opinion of "Requires Improvement", namely Complaints Handling. An action plan is in place to address all issues identified in relation to the audit which will be monitored and reported to CMT and Audit Committee.

Due to vacancies arising in the team, some audits from 2022/23 were completed in early 2023/24 which has impacted on the completion of the fieldwork for the 2023/24 audit plan. However the overall audit plan is set within the context of a multi-year approach to audit planning such that key risk areas are reviewed over a 5 year cycle.

The system of governance (including the system of internal control) can provide only reasonable and not absolute assurance that the assets are safeguarded, the transactions are authorised and properly recorded, that material errors or irregularities are either prevented or would be detected within a timely period and that significant risks impacting on the achievement of the Council's objectives have been mitigated.

### Best Value Assurance Report

A new approach to auditing Best Value has been introduced by the Accounts Commission. This work is now be integrated into annual audit reporting from 2023/24 to build local audit knowledge and reduce the scrutiny burden on councils.

External Audit also conduct thematic reviews as directed by the Accounts Commission. In 2022/23 this direction focused on the effectiveness of council leadership in developing new strategic priorities following the elections in May 2022. The Council's appointed external auditors completed their work on this during 2023/24 with a report presented to full Council on 20 December 2023.

The overall conclusion was that 'Administration elected members and officers worked together to agree clear strategic priorities, objectives, and measures of success. The council needs to maintain effective leadership to continue to achieve its priorities and make the difficult decisions to respond to its challenging financial position.'

### Health and Social Care Integration

The Council, as the funder of the Social Care services within the West Dunbartonshire Health and Social Care Partnership (HSCP) has an interest in the governance arrangements within the HSCP Board. Internal Audit arrangements for the HSCP is provided jointly by the Council's Internal Audit service and the Health Board's Internal Audit Service, with the Council's Internal Audit service providing audit arrangements for social care services and the general oversight of the HSCP Board's governance arrangements.

The HSCP Board has arrangements in place to review its own ongoing compliance with the revised Code of Governance. Due to the Council's role as social care service provider Internal Audit's process outcomes on such services are reported to the Council's Audit Committee as well as that of the HSCP Board. The Chief Social Worker provides the Council with an annual report on the performance of the HSCP.

The financial arrangements for the Council's funding to the HSCP Board are aligned and budget processes run parallel to ensure that appropriate budgets for the HSCP Board are aligned with Council policy and budgeting approaches. On an ongoing basis the Council continues to receive budgetary control information in relation to HSCP Board services funded by the Council.
