4. People Implications

4.1 The Quality Assurance and Training Section liaise with the external providers in line with the terms of the housing support service arrangements in place with them. They also keep providers aware of new developments via correspondence and regular provider meetings. These meetings are organised as a forum for sharing information and to assist with improvements within the service.

4.2 Council Officers from the relevant client sections also continue to monitor these services.

5. Financial Implications

5.1 These Inspection Reports for the independent services have no financial implications for the Department.

6. Risk Analysis

6.1 For any service inspected, failure to meet requirements within the time-scales set out could result in a reduction in grading or enforcement action. This may have an impact on ability of the provider being able to continue delivering the service.

7. Equalities Impact

7.1 No significant issues were identified in a screening for potential equality impact of these reports.

8. Conclusions and Recommendation

8.1 The most recent Inspection Reports for these fourteen independent sector managed services operating in West Dunbartonshire Council were positive and complimentary. In most instances it shows aspects of the services to be considered as very good.

8.2 Members are asked to note the Care Commission inspection reports.
