Dear Mr Rennie

JPIAF (JPIAF) Draft Annual Evaluation Statements – 2005/06

Further to your letter of 4th August 2006 regarding the above we are pleased to submit our joint management response to the 2005/6 Draft Annual Evaluation Statement.

We believe that we have made good progress particularly when viewed within the context of the recent upheavals to our partnership structure, with the dissolution of NHS Argyll & Clyde coupled with the formation of a brand new structure in the form of our Community Health Partnership.

We are proud of the fact that we have retained a strong service user outcomes focus to our joint working and have delivered on a number of our key targets. Those targets that require further work are explored more fully in our detailed response.

The following are included for your review and comment:

1. Management Response to Annual Evaluation Statement
2. Local Improvement Targets
3. Workplan for Older People's Strategy Group
4. Better Outcomes for Older People Framework – update to HISJP

We look forward to receiving the formal Annual Evaluation Statement and acknowledgement of our progress to date.

Yours sincerely

William W Clark
Acting Director of Social Work

Keith Redpath
