Council – 30 March 2011

Subject : General Services Revenue Budgetary Control Report : Period 10 (2010/11)

- 2.3** As per normal practice, the contingency fund forms part of the overall probable outturn review and is now held within the forecast surplus of £2.639m (noted in 2.2).

- 3.2** Notes on variances in excess of £25,000 are attached. The report collates a large amount of information and if any Member wishes further details on any of the variances, it would be appreciated if contact could be made with the undernoted officer prior to the Council meeting.
- 3.3** Although the report indicates that expenditure is favourable in comparison to that anticipated during the budget exercise, the present variance should be viewed in the knowledge that there are a number of variable factors which could arise between now and 31 March and which could affect the year end results.
- 3.4** The Council has been advised that it is due to receive an additional £0.166m during the current year due to the severe weather conditions. The money has been allocated for roads maintenance/repairs. This income and any related spend have now been included.
