#### The notice of review

In my opinion decision made by West Dunbartonshire Council is wrong and unfair.

Firstly, the typical activities of dog grooming salons are not harmful. As I explain in my planning permission application form, level of noise can be compared to vacuum cleaner, and this noise is not permanent it only takes about 15 minutes from a 2 hour session. Further, all cosmetics (shampoos, conditioners, etc.) are made from 100% natural ingredients. After making some recognition with my close neighbors, no one said that they think that this kind of practise in their close residence is harmful. Also as I stated in my planning application form, I would like to work only part time during school hours. My activity will not cause any problems for traffic, as will start when residents were already in their works, and will finish before they will need to drive home. I also mentioned that I can provide even up to 3 parking spaces on my own property, to avoid on street parking.

Secondly, this decision is unfair and show that West Dunbartonshire Council is not treating all citizens the same way. I have consulted with my fellow dog groomer from "short bark and sides" dog grooming salon, 8 Barwood Hill, G82 3DX Dumbarton. This dog grooming salon is located in garden shed at the rear garden. It's 1,5 miles from my location, and it's in the residential area. Owner of this dog grooming salon received permission for opening dog grooming salon, as I was informed by Lead Planning Officer Mrs. Helen Atkinson, because owner of this salon is a West Dunbarton Council tenant. I am really supprised that just because this person is a council tenant, she didnt have to make a planning premition application, didnt have to pay fees, and even receive permition as this grooming salon is not harmful for the residential area. I feel I was treated unfair, because I am the home owner, and that's the reason why I received refusal decision.

I live in semidetached house. My wall neighbor is West Dunbartonshire Council tenant. Should I understand that if my neighbor will ask for permission to open dog grooming salon, she will receive an acceptance because she is a Council tenant? Dog grooming salon run by a Council tenant is not harmful for residential area?

I really hope that for this two reasons West Dunbartonshire Council will consider again my aplication, and guided by care for all citizens in the same way, will issue a fair decision.

Best regards, Joanna Ignys

## THE MAKING OF

WildWash is a naturally other. Quintessentially British, it is made in the beautiful English countryside overlooking

derived pet shampoo and cosmetic range unlike any the hills of Glastonbury.

⟨VIEW Q

Each WildWash product is researched extensively to make sure it fulfils every purpose.

Our products are kind to our pets, to ourselves and to the environment and there is no compromise with using a natural shampoo on your pet. Our shampoo for light costs will lighten your pet's coat beautifully and naturally without stripping the coat harming the skin.

Every product starts with a brain storming session with the wonderful Richard owner of the apothecary that makes our products. His experience and knowledge of working with natural ingredients is almost overwhelming and we feel blessed to have met him

The ingredients we use are chosen for their quality, traceability and transparency of manufacture. It

is very important to us to know that our base ingredients can be traced back to their origin and are as natural as possible.

We discuss which product we want to make, what we want to achieve and of course, the ingredients we would like to use. Our renowned apothecary is recognized as one of the top 10 natural perfumers in world, so we spend time developing unique, divine fragrances that our customers know

and love.

The 100% pure essential oils that form our fragrances, also play a huge part in the performance of our products. For example the sweet orange in our shampoo for dark or greasy coats helps to clarify greasy hair and skin whilst still imparting a beautiful shine to the coat. Its scent is one of my favourites, and together with the other essential oils used, it creates a stunning natural

fragrance.

The scents that we develop for our products are made by hand with precision and recreated for every product run in the perfume room which smells so good we never want to leave!

WildWash is handmade and hand stirred to perfection. We in fact stirred our very first batch of conditioner, which was incredibly hard work! I hadn't realised the muscle power needed for the job and am very happy to leave that to the professionals who do it the best!!!!

Lastly of course, once each product is made, stability tested and signed off, it is time to bottle and label.

This process, again done by hand, is so exciting for us because it is the last phase before we are able to bring our range to market.

We would like to thank our apothecary for the support and the understanding they have given us to enable us to create WildWash.

Since we launched WildWash, we have been inundated with wonderful emails, letters and testimonials from pet owners all over the world about the benefits of our products. We will always maintain the quality of our products and the quality of our ingredients to bring you what we believe to be the best pet care range available.

Westbourne Park Road, London, W11 1EA. Tel No: 020 7402 9672 info@wildwash.co.uk / www.wildwash.co.uk

3x Nozzles

1x Connected Tube

1x Filter

## REPORT OF HANDLING BY APPOINTED OFFICER AND DECISION NOTICE

DC20/097

#### WEST DUNBARTONSHIRE COUNCIL

REPORT OF HANDLING (Delegated)

**APP NO:** DC20/097

CASE OFFICER: Ms Helen Atkinson

ADDRESS/SITE: 46 Castlehill Road, Dumbarton

**PROPOSAL:** Siting of shed to rear of property for use as a dog grooming

business

This application appraisal is based on a desktop assessment only and photographs provided by the agent/applicant due to COVID 19 restrictions.

#### 1. Site Description/Development Details

The application site is a semi – detached house located on Castlehill Road. The house is located on the corner of Castlehill Road and there is a vehicle driveway to the front of the house. The property is contained within a 2m high close boarded fence to the rear garden. The properties southern boundary adjoins a road also known as Castlehill Road that provides vehicle access to the flats to the south in Cumbrae Crescent South. Castlehill Road comprises of two storey dwellings whereas the properties to the south are three storey flats.

The application seeks planning permission for the siting of a shed to the side/rear of the house. The proposed shed would be used to operate a dog grooming business. The proposed shed measures 2.3m x 3m and will have a pitched roof a maximum height of 2.2m. The shed would be sited next to the houses south facing elevation and would be less than 1m from the sites southern boundary. In support of the application the applicant has submitted a statement that outlines the proposed business. The statement advises that the salon would operate during school term time only, Tuesday to Saturday, parking will be available off road in the applicant's front garden, a maximum of 3 clients a day by appointment only and only one client at a time. The applicant has also advised that the shed a blast dryer would be installed in the shed; this equipment has a maximum volume equivalent to 72 decibels.

#### 2. Consultations

None.

#### 3. Application Publicity

None.

#### 4. Representations

None.

#### 5. Relevant Policy

#### West Dunbartonshire Local Plan (Adopted) 2010

- Policy GD1 Development Control
- Policy H5 Development within Existing Residential Areas

#### West Dunbartonshire Local Development Plan (Proposed) 2016

On 27 April 2016, the Planning Committee took a final decision not to accept the Local Development Plan Examination Report recommended modification in respect of including the Duntiglennan Fields site in Clydebank as a housing development opportunity, and therefore, as a result of the Scottish Ministers' Direction, the Local Development Plan has remained unadopted but continues to be a material consideration in the determination of planning applications.

Policy BC4 Existing Neighbourhoods

#### West Dunbartonshire Local Development Plan 2 (Proposed) 2018

On 19th September 2018 the Planning Committee approved Local Development Plan 2: Proposed Plan for consultation. It is therefore the Council's most up to date policy position and it is a material consideration in the assessment of planning applications. The Examination Report of LDP 2 was received on 22nd April 2020 and the modified LDP 2 and associated documents was presented to the August 2020 Planning Committee. The Planning Committee approved LDP2 and this has now been sent to the Scottish Ministers for Adoption. LDP2 is therefore afforded significant weight in the assessment and determination of planning applications at this time.

Policy H4 Residential Amenity

#### 6. Appraisal

The proposal involves the siting of a shed to the side of 46 Castlehill Road, Dumbarton and for this shed to be used to operate a dog grooming business from. Details of the proposed business operations have been provided and are summarised above.

The issues in the determination of the application relate to the siting of the shed relative to the host property and the streetscene. The main issue in the determination of this application relates to the principle of a business operating from a domestic

setting. The policies below are most relevant in the assessment of this application and regard is had to them in this assessment.

In terms of the shed siting and design the shed is of modest proportions and of scale that is typical of such a domestic setting. The siting to the side of the house equally would be typical of a residential area and in itself the shed would not be harmful to the established residential character and appearance of the area. It is the use of the shed that the Planning Authority must give careful consideration to.

In terms of residential amenity, the relevant policies in the adopted Local Plan (2010) and the proposed Local Development Plan 1 (2016) and Local Development Plan 2 (2018) are;

- Local Plan (2010) Policy H5 Development within existing areas
- Local Development Plan (2016) Policy BC4 Existing Neighbourhoods
- Local Development Plan 2 (2018) Policy H4 Residential Amenity

All of these policies seek to protect, preserve and enhance the residential character and amenity of existing residential areas at all times.

As described above the Local Plan and LDP iterations seek to protect and uphold the residential character and amenity of an area. The application site is located in an entirely residential area. Activities within the area are those which are typical of a residential area and would not be untypical of this or any other residential area. The Planning Authority has a role to support economic growth and enable small businesses to set up and grow. However, the Planning Authority also has a role to protect residential amenity and guard against the introduction of business uses that would introduce uses and movements that would be out of keeping with that established residential character. The role of the Planning Authority is therefore to direct business use to the most appropriate areas.

The applicant has provided a supporting statement outlining that the dog grooming salon would principally operate around school times and would open on a Saturday too. It is likely that a maximum of three clients would be seen a day and these would be one at a time and by appointment only. The applicant has advised that the noisiest equipment would be a dryer which the applicant advises is similar in volume to a domestic vacuum. The applicant has suggested that the majority of clients would walk to the premises but has highlighted that off road parking is available. The Planning Authority contend that the level of likely client visits, combined with vehicle movements, dogs barking and equipment noises is likely to be notable in the area as these are a combination of activities that are not typically associated with a residential area. In being notable there is also an argument that these activities are out of keeping with the established residential area and in turn would be harmful to that residential character. The protection of residential amenity is a key requirement of the Local Plan and LDP's. Whilst the Planning Authority acknowledge the importance of small businesses, particularly in the current climate a residential area

is not an appropriate location for such a business as there will be an adverse impact on that established residential character. On balance, it is recommended that the application be refused as the dog grooming salon and the associated movements and activities would be out of keeping and harmful to the established residential character of the area.

#### 7. Added Value

None.

#### 8. Recommendation

#### Refuse

The proposed dog grooming salon by reason of the typical activities associated with the use and the siting in a residential area is considered to be out of keeping with the residential character and harmful to that established residential amenity. The proposal is contrary to Policy H5 Development within existing areas, Local Plan (2010), Policy BC4 Existing Neighbourhoods, Local Development Plan (2016) and Policy H4 Residential Amenity of the Local Development Plan 2 (2018).

#### FOR NOTING

Checklist – Application for Planning Permission
Town and Country Planning (Scotland) Act 1997
The Town and Country Planning (Development Management Procedure) (Scotland) Regulations 2013
Please take a few moments to complete the following checklist in order to ensure that you have provided all the necessary information in support of your application. Failure to submit sufficient information with your application may result in your application being deemed invalid. The planning authority will not start processing your application until it is valid.
a) If this is a further application where there is a variation of conditions attached to a previous consent, have you provided a statement to that effect? *  Yes No Not applicable to this application
b) If this is an application for planning permission or planning permission in principal where there is a crown interest in the land, have you provided a statement to that effect? *  Yes No Not applicable to this application
c) If this is an application for planning permission, planning permission in principle or a further application and the application is for development belonging to the categories of national or major development (other than one under Section 42 of the planning Act), have you provided a Pre-Application Consultation Report? *
Yes No Not applicable to this application

Town and Country Planning (Scotland) Act 1997
The Town and Country Planning (Development Management Procedure) (Scotland) Regulations 2013
d) If this is an application for planning permission and the application relates to development belonging to the categories of national or major developments and you do not benefit from exemption under Regulation 13 of The Town and Country Planning (Development Management Procedure) (Scotland) Regulations 2013, have you provided a Design and Access Statement? *  Yes No X Not applicable to this application
e) If this is an application for planning permission and relates to development belonging to the category of local developments (subject to regulation 13. (2) and (3) of the Development Management Procedure (Scotland) Regulations 2013) have you provided a Design Statement? *  Yes No No No Not applicable to this application
f) If your application relates to installation of an antenna to be employed in an electronic communication network, have you provided an ICNIRP Declaration? *  Yes No Not applicable to this application
g) If this is an application for planning permission, planning permission in principle, an application for approval of matters specified in conditions or an application for mineral development, have you provided any other plans or drawings as necessary:
Site Layout Plan or Block plan.  Elevations.  Floor plans.  Cross sections.  Roof plan.  Master Plan/Framework Plan.  Landscape plan.  Photographs and/or photomontages.  Other.  If Other, please specify: * (Max 500 characters)
Provide copies of the following documents if applicable:
A copy of an Environmental Statement. *  A Design Statement or Design and Access Statement. *  A Flood Risk Assessment. *  A Drainage Impact Assessment (including proposals for Sustainable Drainage Systems). *  Drainage/SUDS layout. *  A Transport Assessment or Travel Plan  Contaminated Land Assessment. *  Habitat Survey. *  A Processing Agreement. *  Other Statements (please specify). (Max 500 characters)

### **Declare – For Application to Planning Authority**

I, the applicant/agent certify that this is an application to the planning authority as described in this form. The accompanying Plans/drawings and additional information are provided as a part of this application.

Declaration Name: Mrs Joanna Ignys

GROUND FLOOR

My name is Joanna Ignys. I am a certified dog groomer. While living in England in 2016 I become sole trader and opened home based dog grooming salon. I was successfully running my business till the end of 2018 when I decide to close down. The only reason was our move to Scotland. Now when we settle in I would like to start working as a dog groomer again. Me and my husband own house on 46 Castlehill road, G82 5AS,

I could focus on

restarting my business. I am writing to you for your permission to run small dog grooming salon in a shed situated in back of our house.

After exact consideration of potential impact I can assure you about that, there won't be any traffic or parking issues as my target client will be residents of Castlehill community. Many of my closer and further neighbors have at least one dog. I'm planning to work Tuesday to Saturday, basically during school hours. As I mentioned my target clients will be from Castlehill community so most of them will have short walking distance to my dog grooming salon. Most of them passes my house anyway taking their dogs for a walk to former farm close by. Those of my future clients who will travel by car, can park on my private possession in front of my house where is enough space to park three cars. Dog grooming session taking me 1,5 to 2 hours per dog. In busy day when I'll be working all day I'll manage to groom 3 dogs per day. I will be working alone, and my opening hours will be similar to school hours, between 9 am till 3 pm. All clients will have to book their appointment first by phone or message, and I'll be serving only one client at the time.

In case you were worry about noise, the loudest from dog groomers stuff is a blast dryer. My dryer has silencing cover, and special noise reduction filter. This model also have wind capacity control. On highest speed is the loudest and producing 72 decibels, what can be compared to vacuum cleaner. Drying time take around 10 to 15 minutes. This level of noise won't be noticed even to the closest residents.

During the last few days I manage to speak with my close neighbors to ensure if such an activity in his close surrounding won't be a problem. All of them assured me that, they won't have any issues with a dog grooming salon in their close surrounding. Some of them already were interested to book an appointment for their dogs.

Any activity in this mater I would start after lockdown end. In the mean time I had completed the professional pet groomers Covid-19 certification training. You can find certificate in attachment.

Hope this letter provides enough information to convince you that there are no contraindications for opening small dog grooming salon in a shed in back of my house. If you still have any concerns, or question, please don't hesitate to contact me.

Best regards, Joanna Ignys

# RELEVANT LOCAL PLAN,

LOCAL DEVELOPMENT PLAN: PROPOSED PLAN (2016)

AND LOCAL DEVELOPMENT PLAN 2: PROPOSED PLAN POLICIES

DC20/097

# WEST DUNBARTONSHIRE LOCAL PLAN

ADOPTED BY
WEST DUNBARTONSHIRE COUNCIL
MARCH 2010

# 04 General Development

#### 4.1

The enhanced role of the Local Plan in providing clear development control advice is stated in Section 25 of the Town and Country Planning (Scotland) Act 1997. Planning Advice Note 40 Development Control indicates that development control should satisfy the expectations of various groups and users of the service. Local Plans form the basis for development control decisions and provide a stable background for investment decisions.

#### 4.2

The Local Plan indicates, amongst other matters, development control policy in relation to the main land uses within the Plan area. This chapter provides guidance in relation to new development in general, and also to specific redevelopment opportunities. Chapter 12 indicates Local Plan policy in relation to more specific types of development not dealt with elsewhere in the Plan.

# **Development Control**

#### 4.3

The following policy relates to all new development and applies to the whole of the Plan area.

### 4.4 Policy GD 1 - Development Control

#### 4.4.1

All new development is expected to be of a high quality of design and to respect the character and amenity of the area in which it is located. Proposals will be required to:

- be appropriate to the local area in terms of land use, layout and design (including scale, density, massing, height, aspect, effect on daylighting, crime prevention measures and privacy); developers will be required to submit design statements where appropriate;
- be energy efficient, including considering options for micro-renewable technologies;
- ensure that landscaping is integral to the overall design, that important landscape features and valuable species and habitats are conserved and where possible enhanced, and that there is an emphasis on native planting;
- ensure that the value of the historic and natural environment is recognised, and is not devalued or threatened by the proposal;
- ensure that open space standards are met;
- assess and address any existing or potential increase in flood risk and/or environmental pollution, provide drainage consistent with Sustainable Urban Drainage Systems design guidance and ensure that suitable remediation measures

- are undertaken on contaminated sites;
- demonstrate, where appropriate, that the development will not result in a negative impact on the water environment;
- ensure that increases in traffic volumes and adverse impacts on air quality are avoided or minimised by including provision for public transport, pedestrian and cycling access, and considering the need for a Green Travel Plan;
- meet the roads, parking and access requirements of the Council (particularly for disabled people and the emergency services) reflecting national guidance where appropriate;
- consider the availability of infrastructure and the impact on existing community facilities;
- minimise waste, and provide for the storage, segregation and collection of recyclable and compostable material; a Site Waste Management Plan may be required; and
- be consistent with other Local Plan policies.

#### **Reasoned Justification**

#### 4.4.2

Policy GD 1 sets out the criteria which will be used in considering all development proposals and applications for planning permission. The intention of the policy is to ensure that all new development enhances the Plan area and environmental quality in general. The emphasis on the importance of design reflects a similar emphasis in SPP 1 and the Designing Places document published by the Scottish Government. This emphasis has been continued in more recent policy and advice, and SPP 20 draws together and reinforces the Government's design policy commitment. Achieving better quality design in the built environment and public open space requires design to be given greater importance from the beginning. New development should provide lasting improvements to the built environment, create successful places and promote local distinctiveness. PAN 68 Design Statements provides further advice. Specific design guidelines have been produced for both the Clydebank and Dumbarton Riverside areas and have been approved as Supplementary Planning Guidance. Other Local Plan policies within the following chapters will give more guidance to developers on specific types of development, for example Policy H 4 in relation to new housing. These should be referred to where appropriate, and together with Policy GD 1, will form the first point of reference when considering planning applications.

#### 4.4.3

Development proposals on sites which have watercourses flowing through them or adjacent to them, or which are at risk from tidal flooding, are likely to be required to be submitted with a Flood Risk Assessment. Further details in relation to flooding and drainage are provided in the flooding and sustainable urban drainage policies in Chapter 13. However, it is considered appropriate to apply Sustainable Urban Drainage Systems to all new developments, whether or not they are currently affected by flooding, in order to address diffuse pollution originating

from new developments, as well as controlling site run-off so as not to exacerbate flood risk elsewhere. The Government has endorsed the guidance "Sustainable Urban Drainage Systems Design Manual for Scotland and Northern Ireland" published by the Sustainable Urban Drainage Systems Scottish Working Party, but further guidance may be appropriate as methods develop. PAN 61 Planning and Sustainable Urban Drainage Systems provides further advice. It should be noted that as at 2009 the Council does not have a policy of adopting SUDS features and the matter of liability and maintenance must be discussed for every development with the Council, to ensure all parties are aware of their responsibilities prior to any construction. The Council requires that any planning applications affecting contaminated land include suitable remediation measures so that the ground is made suitable for the new use, as required by PAN 33 Development of Contaminated Land. Finally, the Water Framework Directive and related regulations require that the physical characteristics of water courses as well as the quality is to be protected - see also paragraphs 13.8.1 and 13.8.2.

#### 4.4.4

The requirement to minimise waste and provide for its storage and collection from new development is in accordance with SPP 10 Planning for Waste Management and PAN 63 Waste Management Planning. A Site Waste Management Plan may be required to minimise waste at source on construction sites through the accurate assessment of the use of materials and the potential for recycling material on or off site.

# **Redevelopment Opportunity Sites**

#### 4.5

There are a number of sites within West Dunbartonshire which are in need of comprehensive redevelopment. These sites have not been identified within the individual chapters because they are suitable for a variety of future uses, including mixed uses. Policy GD2 will apply to these sites.

in place for these areas. The importance of design is reflected both in SPP 1, which indicates that a proposal may be refused solely on design grounds, and SPP 3. A number of recent Planning Advice Notes (for example on Housing Quality, New Residential Streets, Designing Safer Places and Inclusive Design) provide further advice and information on good practice in terms of housing design. Options for micro-renewable technologies should be considered as part of a range of energy efficiency measures. Open space and car parking facilities are essential elements of acceptable housing layouts, and the Council will expect developers to conform to the standards laid down by Policy R2 and the Roads Development Guide respectively and in particular consider the development of Home Zones. Existing trees, hedges, shrubs and other natural and manmade features contribute to landscape quality and biodiversity, and should be retained and enhanced. In relation to access to new dwellings, developers will be strongly encouraged to provide homes which are accessible to all and will meet the needs of a growing elderly population - design and layout should comply with the Housing for Varying Needs guidance.

# **Development within Existing Residential Areas**

#### 6.37

As well as ensuring that new residential development reaches the highest standard, it is also vital that the character and amenity of existing residential areas is protected and enhanced by any new development which is proposed. This is particularly important when, as a matter of policy, development is being actively promoted within the existing built up area.

# 6.38 Policy H5 - Development within Existing Residential Areas

#### 6.38.1

The character and amenity of existing residential areas, identified on the Proposals Map, will be safeguarded and where possible enhanced. Development within existing residential areas will be considered against the following criteria:

- the need to reflect the character of the surrounding area in terms of scale, density, design and materials;
- the requirement to avoid over development which would have an adverse effect on local amenity, access and parking or would be out of scale with surrounding buildings;
- the need to retain trees, hedgerows, open space and other natural features;
- extensions to dwellings must complement the character of the existing building, particularly in terms of scale and materials, not dominate in terms of size or height, and not have a significantly adverse affect on neighbouring properties;

- the subdivision of the curtilage of a dwelling for a new house should ensure that the
  proposed plot can accommodate a house and garden; the new house and garden to be
  of a scale and character appropriate to the neighbourhood; sufficient garden ground
  should be retained for the existing house; the privacy of existing properties should not
  be adversely affected and separate vehicular accesses should be provided;
- with regard to non-residential uses, whether they can be considered ancillary or complementary to the residential area, and would not result in a significant loss of amenity to the surrounding properties. A significant loss of amenity might be expected to occur as a result of increased traffic, noise, vibration, smell, artificial light, litter, hours of operation and general disturbance; and
- the proposal conforms with other Local Plan policies.

#### **Reasoned Justification**

#### 6.38.2

This policy seeks to ensure that the character of existing residential areas is protected and that all development proposals within these areas will maintain or enhance their amenity. It is considered that using sympathetic design, avoiding over-development and retaining existing landscape features is the best way of achieving this. It is particularly important that the development of infill and gap sites should not be at the expense of open space which makes an important contribution to the quality of local environments.

#### 6.38.3

The introduction of small-scale non-residential uses to existing residential areas may be acceptable, but their impact on the residential environment will be the overriding consideration. Policy H 5 indicates the factors which might lead to a loss of amenity in an existing area. However, there may be benefits in encouraging some other suitable uses into existing residential areas, for example nursing homes, children's nurseries and offices, which could provide small-scale local services and employment opportunities.

#### **Priority Areas**

#### 6.39

The Scottish Government has identified five strategic objectives for a Wealthier and Fairer, Healthier, Smarter, Safer and Stronger and Greener Scotland. The Fairer Scotland Fund has replaced several previous funding streams, including the Community Regeneration Fund, and will help the Community Planning Partnership regenerate disadvantaged communities. Allocations of the Fund were informed by using the Scottish Index of Multiple Deprivation.

# West Dunbartonshire Local Development Plan (Proposed Plan)

puts pedestrians first. Neighbourhoods should have a variety of house types to meet the needs of people at different stages in their lifecycle. New homes should be designed taking account of issues that are important to residents such as the need for adequate and flexible internal space, energy efficiency, noise insulation and natural light.

6.6.3 Key elements of design and the standards expected for all new housing development will be set out in Residential Development Principles for Good Design Supplementary Guidance.

# **6.7 Existing Neighbourhoods**

6.7.1 New house-building will form only a small part of the overall number of houses in West Dunbartonshire. The majority of residents live in well-established residential areas. It is important that these areas are kept or made as attractive as possible for the residents living there.

6.7.2 The term 'residential amenity' refers to the pleasantness of living somewhere. It reflects the appearance of buildings and their surroundings, the amount and quality of open and green spaces, the level of traffic, noise and privacy. Residential amenity can be adversely affected by development which is out of character in terms of design or overdevelopment, removes valued open space, introduces an inappropriate amount of traffic or noise, or overlooks private areas. Householder development such as extensions, driveways and decking will generally be acceptable except where there is a significant adverse impact on neighbours. Supplementary Guidance will be produced on this matter. Local shops, community uses and some small scale employment uses such as nurseries and offices may add to the attractiveness of a residential area and provide convenient services, but need to respect the amenity of the area.

# **Policy BC4**

6.7.3 Development that would significantly harm the residential amenity, character or appearance of existing neighbourhoods will not be permitted.

# **6.8 Community Facilities**

**6.8.1** In addition to housing, there are a range of other facilities that contribute to a community being attractive and successful, for example

schools, local shops, health facilities, leisure centres, community halls, quality open spaces and outdoor sports facilities.

6.8.2 In 2013, the Council approved a 10 year Capital Plan with specific projects identified for development in the period to 2016. Projects identified by this Local Development Plan include a new Kilpatrick Secondary School on the site of the current school, a shared campus for early and primary school education in Bellsmyre on the site of the current St Peter's primary school, a new cemetery for Dumbarton and an extension to the Vale of Leven cemetery.

A site for the extension to the Vale of Leven cemetery is still to be identified. A replacement school for Our Lady and Saint Patrick's secondary school in Dumbarton for which a site is to be

# Homes for Particular Needs

As in many other areas of Scotland, West Dunbartonshire has a growing population of older people. Ideally people should be supported to allow them to continue to live independently in their own homes as they get older. This might require adaptations to their existing home, or moving to more suitable accommodation, for example, to a home without stairs. The demand for sheltered housing or housing specifically built for older people is also likely to increase. Proposals for this type of accommodation in suitable accessible locations, for whatever tenure, will be welcomed. In addition, all new housing should comply with the Housing for Varying Needs guidance to ensure it is suitable for all life stages and that it will meet future needs.

Despite the desire to help older people remain at home and, as our population continues to age, the demand for care home and nursing home places will continue to increase. The Council has provided a new Care Home at Crosslet Estate in Dumbarton, and a second is to be built at Queens Quay in Clydebank. A new private care home in Alexandria has been completed and has been opened for use. This reorganisation of Care Homes has resulted in the sites of the former smaller homes being vacated, creating opportunities for redevelopment to other appropriate uses. The reuse of these properties for residential development and other uses is supported by this Plan, subject to being in accordance with the provisions of this Plan.

# Policy H3

#### **Homes for Particular Needs**

Particular needs housing will be supported on the sites contained within Table 3 of this Plan, and other suitable sites, where they accord with the relevant policies of the Plan.

Table 3: Sites for Particular Needs Housing				
Site Ref	Address	Location	Status	Particular Need
H3(1)	Auchentoshan	Clydebank	Proposal	Care Home
H3(2)	Queens Quay	Clydebank	Consent	Care Home
H3(3)	Dalreoch	Dumbarton	Proposal	Travellers' Site
H3(4)	Cochno Waterworks	Hardgate	Consent	Care Home

Note: Development of those sites which are in the greenbelt will be restricted to the uses and areas identified.

# **Residential Amenity**

New house-building is only a small part of the overall number of homes in West Dunbartonshire. The majority of residents live in well-established areas, and it is important that these are kept or made as attractive as possible for the residents living there. Inappropriate development which could have a detrimental impact on the amenity of a community will not be supported. Local shops, community uses and some small scale employment uses, such as nurseries and offices, can add to the attractiveness of a residential area and provide convenient services, but must respect the amenity of the area.

Policies CP1 and CP2, the Creating Places Supplementary Guidance and other relevant policies of the Plan, will be used in conjunction with Policy H4 to ensure all new development is well integrated with existing residential areas and has no detrimental impact on them.

# Policy H4

# **Residential Amenity**

The Council will protect, preserve and enhance the residential character and amenity of existing residential areas at all times. In this regard, there will be a general presumption against:

- a) Extensions to residential properties and/or outbuildings within the curtilage of the Plot, which would have adverse significant impacts upon neighbouring properties, including but not limited to, overshadowing, overlooking, overbearing, insufficient parking, and the character and appearance of the area;
- b) The establishment of non-residential uses within, or in close proximity to, residential areas which potentially have detrimental effects on local amenity or which cause unacceptable disturbance to local residents;
- c) The development for other uses on locally important areas of recreational or amenity open space, which are not safeguarded or covered by Policy G1, but significantly contribute to the character and appearance of the residential area concerned, or which offer opportunities for informal outdoor sport and recreation;
- d) The removal of play equipment from areas of recreational open space;
- e) The closure or disruption of existing footpaths, which provide important links between housing areas and areas of public open space; local shops and other community facilities and transportation nodes etc.;

New housing developments will not be permitted in locations where existing, established adjacent uses are likely to have an unacceptable impact on the amenity of future residents.

# PROPOSED CONDITIONS

DC20/097

#### DC20/097 - 46 Castlehill Road, Dumbarton

#### **CONDITIONS:**

1. Before the development hereby permitted starts on site, a parking plan shall be submitted for the approval in writing of the planning authority and shall include provision of two additional in curtilage parking spaces measuring 5.5 metres x 2.5 metres. Thereafter the development shall be implemented as approved.

Reason: To ensure adequate off street parking provision for the use.

The road opening permit requirement would be an 'informative'.

2. Before the development hereby permitted starts on site, a noise mitigation strategy shall be submitted for the approval in writing of the planning authority through consultation with the Council's Environmental Health Service. The noise mitigation strategy shall detail all noise sources resulting from the operation of the business and identify suitable means of reducing the impact of these noise sources on neighbouring properties and shall include proposed days and hours of operation. The noise mitigation strategy shall be implemented as approved and no changes shall take place without the prior written consent of the planning authority.

Reason: To protect neighbouring amenity from adverse noise nuisance.
