

PLANNING COMMITTEE

At a Meeting of the Planning Committee held by video conference on Monday, 2 June 2021 at 10.00 a.m.

Present: Bailie Denis Agnew and Councillors Gail Casey, Karen Conaghan, Ian Dickson, Diane Docherty, Jim Finn, Daniel Lennie, Jonathan McColl and Lawrence O'Neill.

Attending: Gail MacFarlane, Chief Officer – Roads and Neighbourhood; Pamela Clifford, Planning, Building Standards and Environmental Health Manager; John Walker, Assistant Engineering Officer, Roads & Transportation; Ross Lee, Lead Planning Officer; Nigel Ettles, Section Head – Litigation (Legal Officer) and Scott Kelly, Committee Officer.

Councillor Jim Finn in the Chair

ADJOURNMENT

The Committee unanimously agreed to adjourn the meeting in order to allow site visits to take place to the sites of the two planning applications on the agenda for the meeting.

The meeting adjourned at 10.07 a.m.

RECONVENED MEETING

The meeting of the Planning Committee was reconvened via video conference on Monday, 28 June 2021 at 9.15 a.m. Bailie Agnew and Councillors Casey, Dickson and Docherty were in attendance. It was noted that apologies for the reconvened meeting had been received from Councillors Conaghan, Lennie and McColl.

The officers in attendance were Peter Hessett, Chief Officer – Regulatory and Regeneration; Pamela Clifford, Planning, Building Standards and Environmental Health Manager; Nigel Ettles, Section Head – Litigation (Legal Officer); and Scott Kelly, Committee Officer.

Councillor Diane Docherty in the Chair

DECLARATIONS OF INTEREST

It was noted that there were no declarations of interest in any of the items of business on the agenda.

MINUTES OF PREVIOUS MEETING

The Minutes of Meeting of the Planning Committee held on 21 April 2021 were submitted and approved as a correct record.

NOTE OF VISITATION

A Note of Visitation carried out on 19 April 2021, a copy of which forms Appendix 1 hereto, was submitted and noted.

OPEN FORUM

The Committee noted that no open forum questions had been submitted by members of the public.

PLANNING APPLICATIONS

Reports were submitted by the Chief Officer – Regulatory and Regeneration in respect of the following planning applications:-

- (a) **DC21/030/FUL – Erection of 3 storey block of flats comprising 18 units and associated parking and open space at bowling green, John Knox Street, Clydebank by Clydebank Housing Association.**

Reference was made to a site visit which had been undertaken in respect of the above application. The Planning, Building Standards and Environmental Health Manager was then heard in further explanation of the report.

After discussion and having heard the Planning, Building Standards and Environmental Health Manager in answer to Members' questions, the Committee agreed that it was minded to grant planning permission and delegate authority to the Planning, Building Standards and Environmental Health Manager to issue the decision subject to the conditions set out in Section 9 of the report, as detailed within Appendix 2 hereto, and to the satisfactory conclusion of a legal agreement or other suitable mechanism to secure a financial payment towards open space provision/green infrastructure improvements in the local area.

Note: Councillor Finn entered the meeting during consideration of this item.

(b) DC/21/081/FUL - Section 42 application to amend Condition 2 (with revised brick type specification) and remove Condition 19 (traffic calming measures) of planning permission DC20/028 Residential Development Site on Land Adjacent to Miller Street, Clydebank by Miller Homes

Reference was made to a site visit which had been undertaken in respect of the above application. The Planning, Building Standards and Environmental Health Manager was then heard in further explanation of the report.

After discussion and having heard the Planning, Building Standards and Environmental Health Manager in answer to a Member's question, the Committee agreed-

- (1) to grant planning permission subject to the conditions set out in Section 9 of the report, as detailed within Appendix 2 hereto; and
- (2) to delegate authority to the Planning, Building Standards and Environmental Health Manager to confirm the name of the brick type which would be used in the development.

The meeting closed at 10.00 a.m.

DRAFT

PLANNING COMMITTEE

NOTE OF VISITATION – 19 APRIL 2021

Present: Bailie Denis Agnew and Councillors Jim Bollan, Karen Conaghan, Ian Dickson and Diane Docherty.

Attending: Ross Lee, Lead Planning Officer.

SITE VISIT

A site visit was undertaken in connection with the undernoted planning application-

DC20/242 – Planning Permission for change of use from Care Home to Single-use holiday let and formation of landscaped parking area

DC20/243 – Listed Building Consent for internal alteration to form en-suites

Dalmoak House, Renton Road, Dumbarton by Lords Capital Scotland Ltd.

DC21/030/FUL – Erection of 3 storey block of flats comprising 18 units and associated parking and open space at bowling green, John Knox Street, Clydebank by Clydebank Housing Association.

MINDED TO GRANT full planning permission subject to the following conditions:-

1. Exact details and specifications of all proposed external materials shall be submitted for the further written approval of the Planning Authority prior to any work commencing on site and shall be implemented as approved.
2. Prior to the commencement of development on site, full details of all hard surfaces shall be submitted for the further written approval of the Planning Authority. The development shall thereafter be completed in accordance with the approved details prior to the occupation of any unit within the development.
3. Prior to the commencement of development on site, full details of the design and location of all walls and fences to be erected on site shall be submitted for the further written approval of the Planning Authority. The development shall thereafter be completed in accordance with the approved details prior to the occupation of any unit within the development.
4. Prior to the commencement of development on site, details of the design and location of all external lighting shall be submitted for the further written approval of the Planning Authority and the development shall thereafter be completed in accordance with the approved details prior to the occupation of any unit within the development, unless otherwise agreed in writing with the Planning Authority.
5. Prior to the commencement of development on site, details of the design and location of bin stores shall be submitted for the further written approval of the Planning Authority and the development shall thereafter be completed in accordance with the approved details prior to the occupation of any unit within the development, unless otherwise agreed in writing with the Planning Authority.
6. No unit within the development shall be occupied until all of the vehicle parking spaces have been provided within the site in accordance with the approved plans. The spaces shall thereafter be kept available for parking at all times.
7. Prior to the commencement of development on site, full details of the foul and surface water drainage system shall be submitted for the written approval of the Planning Authority. The drainage system shall incorporate the principles of Sustainable Urban Drainage Systems within its design, and thereafter shall be implemented prior to the occupation of any unit within the development.

8. The development hereby approved shall be constructed strictly in accordance with the finished site levels and finished floor levels as shown on approved plan J3222-C-02 Rev B. Any alterations to these finished site and floor levels shall first be agreed in writing with the Planning Authority.
9. No development (other than investigative works) shall commence on site until such time as a detailed remediation scheme for the site has been submitted to and approved in writing by the Planning Authority. The scheme shall be prepared by a suitably qualified person and shall detail the measures necessary to bring the site to a condition suitable for the intended use by removing unacceptable risks to human health, buildings and other property, and the natural and historical environment. The scheme shall include details of all works to be undertaken, the remediation objectives and criteria, a timetable of works and/or details of the phasing of works relative to the rest of the development, and site management procedures. The scheme shall ensure that upon completion of the remediation works the site will not qualify as contaminated land under Environmental Protection Act 1990 Part IIA in relation to the intended use of the land after remediation.
10. The approved remediation scheme shall be carried out in accordance with its terms prior to the commencement of development other than that required to carry out remediation, unless otherwise agreed in writing by the Planning Authority. The Planning Authority shall be notified in writing of the intended commencement of remediation works not less than 14 days before these works commence on site. Upon completion of the remediation works and prior to the site being occupied, a verification report which demonstrates the effectiveness of the completed remediation works shall be submitted to and approved in writing by the Planning Authority.
11. The presence of any previously unexpected contamination that becomes evident during the development of the site shall be reported to the Planning Authority in writing within one week, and work on the site shall cease. At this stage, if requested by the Planning Authority, an appropriate investigation and risk assessment shall be undertaken and a remediation scheme shall be submitted to and approved by the Planning Authority prior to the recommencement of site works. The approved details shall be implemented as approved.
12. If required, a monitoring and maintenance scheme to include monitoring the long- term effectiveness of the proposed remediation over a period of years determined by the scheme shall be submitted to and approved by the Planning Authority. Any actions ongoing shall be implemented within the timescale agreed with the Planning Authority in consultation with Environmental Health measures. Following completion of the actions/measures identified in the approved remediation scheme a further report which demonstrates the effectiveness of the monitoring and maintenance measures shall be submitted to and approved by the Planning Authority.

13. If there is a requirement to either re-use site won material or to import material then the assessment criteria and sampling frequency that would adequately demonstrate its suitability for use shall be submitted to and approved by the Planning Authority prior to any material being re-used or imported. In addition to this and in accordance with BS3882:2015 and BS8601:2013, material to be used in the top 300mm shall be free from metals, plastic, wood, glass, tarmac, paper and odours. Prior to placement of any of the material, the developer shall submit a validation report for the approval in writing of the Planning Authority and it shall contain details of the source of the material and associated test results to demonstrate its suitability for use. Thereafter the development shall be undertaken in accordance with the approved details.
14. During the period of construction, all works, including piling, and ancillary operations which are audible at the site boundary (or at such other place(s) as may first be agreed in writing with the Planning Authority), shall be carried out between the following hours unless otherwise approved in writing by the Planning Authority:

Mondays to Fridays: 0800-1800
Saturdays: 0800-1300
Sundays and public holidays: No working
15. No development shall commence on site until such time as a scheme for the control and mitigation of dust has been submitted to and approved in writing by the Planning Authority. The scheme shall identify likely sources of dust arising from the development or its construction, and shall identify measures to prevent or limit the occurrence and impact of such dust. The approved scheme shall thereafter be implemented fully prior to any of the identified dust generating activities commencing on site and shall be maintained thereafter, unless otherwise approved by the Planning Authority.
16. No development shall take place on site until such time as a noise impact assessment has been submitted to and approved in writing by the Planning Authority. This noise impact assessment shall include an assessment of the potential for occupants of the development to experience noise nuisance arising from the Bowling Club and adjacent railway line. Where a potential for noise disturbance is identified, proposals for the attenuation of that noise shall be submitted to and approved in writing by the Planning Authority. Any such approved noise attenuation scheme shall be implemented prior to the development being occupied and shall thereafter be retained in accordance with the approved scheme. The noise impact assessment and any recommendations in respect of attenuation measures shall be prepared by a suitably qualified person.

This area is subject to noise from aircraft and therefore the Noise Impact Assessment must also assess for mitigating this noise source. The development will require high specification acoustic roof insulation as a minimum and double/triple glazing.

17. No development shall take place on site until a vibration survey has been submitted to and approved in writing by the Planning Authority. The vibration survey shall determine the vibration dose value for properties within 30 metres of the railway track. Any mitigation measures recommended by the survey shall be implemented prior to the development being occupied and shall thereafter be retained in accordance with the approved scheme. The noise impact and/or vibration assessment and any recommendations in respect of mitigation measures shall be prepared by a suitable qualified person.
18. No development shall commence on site until such time as a noise control method statement for the construction period has been submitted to and approved in writing by the Planning Authority. This statement shall identify likely sources of noise (including specific noisy operations and items of plant/machinery), the anticipated duration of any particularly noisy phases of the construction works, and details of the proposed means of limiting the impact of these noise-sensitive properties. The construction works shall thereafter be carried out in accordance with the approved method statement unless otherwise approved in writing by the Planning Authority.
19. No piling works shall be carried out until a method statement has been submitted to and approved in writing by the Planning Authority. This statement shall include an assessment of and take into account the following:
 - The impact of the piling on surrounding properties.
 - Detail any procedures which are required to minimise the impact of noise and vibrations on the occupants of surrounding properties.

This statement as submitted shall be prepared by a suitably qualified person and shall take into account the guidance contained in BS6472:1984 'Evaluation of Human Response to Vibration of Buildings'. The piling works shall thereafter be carried out in accordance with the approved method statement until they are completed on site.

20. No development shall commence on site until details for the storage and the collection of waste arising from the development shall be submitted to and approved in writing by the Planning Authority. The agreed details shall be in place prior to the occupation of the any unit within the development and thereafter maintained for the lifetime of the development.
21. A landscaping scheme for the site shall be submitted to and approved by the Planning Authority, in consultation with Glasgow Airport, prior to commencement of development on site and shall be implemented not later than the next appropriate planting season after the occupation of the first unit within the development. The scheme shall include details of the maintenance arrangements and the landscaping shall thereafter be maintained in accordance with these details.

22. Prior to the occupation of the development, the developer shall install the necessary infrastructure to enable the full development to be connected to the existing fibre optic network, where available in West Dunbartonshire, and in accordance with the relevant telecommunications provider's standards.
23. All ground or vegetation clearance works, including any tree felling, shall take place outwith the main bird breeding season (i.e. outwith the period of March to September inclusive), and no ground or vegetation clearance works are permitted between March to September in this respect. If this is not possible, a suitably qualified ornithologist/ecologist shall be engaged to survey any buildings, grounds and trees immediately prior to such works to advise the applicant/contractor/developer of any bird nesting activity and of any actions required to protect birds.
24. Unless otherwise agreed in writing by the Planning Authority, prior to the commencement of development with the site, details of the location and design of an electric charging point(s)/unit(s) to serve the development shall be submitted to and approved in writing by the Planning Authority. The approved car charging point(s)/unit(s) and associated infrastructure shall thereafter be installed in accordance with the approved details at a timescale agreed by the Planning Authority and maintained as such thereafter.
25. Twelve months after the full occupation of the building, a parking review including a methodology statement to be agreed with the Planning Authority shall be undertaken to ascertain levels of parking and to establish whether there are any parking related problems associated with the development. The findings and recommendations of the review shall be submitted for the written approval of the Planning Authority and any actions recommended in the review shall be implemented in a timescale agreed with the Planning Authority.
26. No development shall take place on site until full details of any solar panels to be installed within the development site have been submitted to and approved in writing by the Planning Authority, in consultation with Glasgow Airport. The submitted details shall include a glint and glare assessment. No subsequent alterations shall be made to the approved development unless submitted to and approved in writing by the Planning Authority in consultation with Glasgow Airport.

DC/21/081/FUL - Section 42 application to amend Condition 2 (with revised brick type specification) and remove Condition 19 (traffic calming measures) of planning permission DC20/028 Residential Development Site on Land Adjacent to Miller Street, Clydebank by Miller Homes.

GRANT full planning permission subject to the following conditions:-

1. Prior to the commencement of development on site, exact details, specifications and samples of all proposed external materials to be used for the houses within the development site shall be submitted to and approved in writing by the Planning Authority. This shall include details of all materials and finishes as scheduled and annotated on the approved plan 'Site Layout (Drawing No. 001 Rev B)'. Thereafter, the development shall be completed in strict accordance with the approved material details and palette.
2. Further to condition 1 above, the brick type to be used for the elevation treatment of all houses within the development site shall be of the 'Forterra Farmstead Antique (Clay Finish)' specification and variety. For the avoidance of doubt, the details, specification and samples of the final brick type provided in response to Condition 1 shall be predominantly red in tone and colour and shall be of tumbled finish.
3. Further to Conditions 1 and 2 above, prior to the approved brickwork associated with any house being constructed or installed on site, a sample panel of this brickwork shall be constructed on site in order for it and the associated mortar to be reviewed, inspected and approved in writing by the Planning Authority. Thereafter, the development shall be completed in strict accordance with the approved brick details.
4. Notwithstanding the plans hereby approved including 'Site Layout (Drawing No. 001 Rev B)', prior to the commencement of development on site, full details of all hard and soft boundary treatments for across the site shall be submitted to and approved in writing by the Planning Authority. These details shall also include a variety of boundary treatments including the use of brick walls for the front, side and rear curtilages of residential properties within the site. Thereafter, the approved boundary treatments arrangements shall be installed prior to the occupation of any associated houses unless otherwise agreed in writing by the Planning Authority and maintained as such thereafter for the lifetime of the development.
5. Prior to the commencement of development on site, details of alternative boundary treatments and means of enclosure for the existing substation building located on the north east corner of the site shall be submitted to and approved in writing by the Planning Authority. The details shall include a brick treatment and the approved boundary treatment details shall be undertaken and completed prior to the occupation of any houses within the site and maintained as such thereafter for the lifetime of the development unless otherwise agreed in writing by the Planning Authority.

6. Prior to the commencement of development on site, full details of all path upgrade works as indicated on approved plan 'Site Layout (Drawing No. 001 Rev B)', including material finishes, surfaces, levelling works and associated landscaping shall be submitted to and approved in writing by the Planning Authority. This shall include specific details for the works to the existing footpath located on the north eastern side boundary of the development site and the existing path located immediately neighbouring the site to the west. Thereafter, the path upgrade and improvement works approved shall be undertaken in full and completed prior to the occupation of any houses within the site unless otherwise agreed in writing by the Planning Authority.
7. Prior to the commencement of development on site, full details of the design, appearance, height and location of all retaining walls and other retention features and associated levelling works across the site shall be submitted to and approved in writing by the Planning Authority. Thereafter, the agreed retention and levelling details shall be implemented prior to the occupation of any associated houses unless otherwise agreed in writing by the Planning Authority. No changes or deviations from the approved and agreed levels and retention arrangements shall be undertaken without the further written consent of the Planning Authority.
8. The development hereby approved shall be constructed strictly in accordance with the finished site levels and finished floor levels as shown on approved plan 'Levels Layout for Planning (Drawing No E03 Rev A)'. Any alterations to these finished site and floor levels shall first be agreed in writing with the Planning Authority.
9. Prior to the commencement of development on site, details of the design and location of cycle storage provision, street furniture (including bin stores) and external lighting, shall be submitted to and approved in writing by the Planning Authority. The development shall thereafter be completed in accordance with the approved details prior to the occupation of any of the houses and thereafter maintained, unless otherwise agreed in writing with Planning Authority.
10. The soft landscape arrangements approved under drawing 'Landscape Proposals (Drawing No.109/103/02 Rev C)' including the associated planting schedule and maintenance arrangements shall be implemented no later than the next appropriate planting season or after occupation of the 30th property. Any trees, shrubs or plants forming part of the approved landscape scheme which die, are removed or become seriously damaged or diseased, within a period of 5 years from the date of their planting, shall be replaced in the next planting season with others of similar sizes and species unless the Planning Authority gives written approval to any variation. The landscaping arrangements as approved shall thereafter be maintained in accordance with these details for the lifetime of the development unless otherwise agreed in writing by the Planning Authority.

11. Notwithstanding approved plan 'Play Area Landscape Proposals (Drawing No. 109.103.02 Rev B), a revised 'Play Equipment Strategy' for the site shall be submitted to and approved in writing by the Planning Authority. This shall include (but not be limited to) the following:

- Incorporate the reuse of existing trees within the site which are being felled as part of the development to create natural forms of play equipment.
- Details and specifications of other forms of natural play equipment and structures which offer design solutions that effectively navigate and manage the increase in gradient of the central public open space area within the site.
- Provide full details regarding the maintenance arrangements for all play equipment and associated features within the site.

Thereafter, the approved play equipment strategy and all associated features and specifications shall be installed prior to the completion of the 30th unit within the development unless otherwise in agreed in writing by the Planning Authority and maintained in accordance with the approved details for the lifetime of the development.

12. Prior the commencement of development on site and further to Sections 4.2.2 and 4.3.3 of the approved 'Extended Phase 1 Habitat Survey (Dated September 2019), both an otter and bat survey and report (prepared and undertaken by a competent and qualified ecologist) shall be submitted to and approved writing by the Planning Authority. These surveys shall be undertaken a minimum of 6 weeks prior to any construction work commencing on site. Thereafter, any recommendations or mitigation measures contained within the reports shall be implemented prior to works commencing on site and shall be maintained as such for the lifetime of the development.

13. All construction work on site relevant to the application shall be carried out in accordance with the recommendation and mitigation measures outlined within Section 4 of the approved 'Extended Phase 1 Habitat Survey' (Dated September 2019). These measures and recommendations shall remain in effect until all construction work associated with the development is complete on site.

14. Further to condition 12 and 13 above, all ground or vegetation clearance works, including any tree felling or demolition works, shall take place outwith the main bird breeding season (i.e. outwith the period of April to July inclusive), and no demolition or ground or vegetation clearance works are permitted between April to July in this respect. If this is not possible, a suitably qualified ornithologist/ecologist shall be engaged to survey any buildings, grounds and trees immediately prior to such works to advise the applicant/contractor/developer of a bird nesting activity and of any actions required to protect birds.

15. Prior to the occupation of the 30th housing unit within the site, the drainage of surface water shall be completed in accordance with the approved Sustainable Urban Drainage System (SUDS) design, as set out in the approved 'Drainage Strategy Report' (Dated August 2019) and the approved plans. The SUDS and associated features including the planted swales once installed shall thereafter be maintained on site in accordance with the approved details, unless otherwise agreed in writing by the Planning Authority.
16. No house shall be occupied within the site until the vehicle parking spaces associated with that house unit have been constructed provided within the site in accordance with approved plan 'Site Layout (Drawing No. 001 Rev B)'. Further to the approved plans, each vehicular parking space shall be constructed to include a marking which clearly identifies it to the house number it is to be attributed within the site or alternatively be marked to identify it as a visitor parking space where relevant. The aforementioned parking shall thereafter be retained and be capable of use at all times and shall not be removed or altered without the prior written approval of the Planning Authority.
17. Further to condition 16 above and unless otherwise agreed in writing by the Planning Authority, prior to the commencement of development with the site, details of the location and design of an electric charging point(s)/unit(s) to serve the development shall be submitted to and approved in writing by the Planning Authority. The approved car charging point(s)/unit(s) and associated infrastructure shall thereafter be installed in accordance with the approved details at a timescale agreed by the Planning Authority and maintained as such thereafter.
18. Notwithstanding the plans hereby approved including 'Site Layout (Drawing No. 001 Rev B)', specific details of traffic calming measures and features to be incorporated into the junctions and accesses at Kilbowie Road and Miller Street from within the development site shall be submitted to and approved in writing by the Planning Authority. The measures proposed shall include the use of speed tables or similar features and shall all be designed with the intention to inform drivers that the road network is residential in nature. Thereafter, the approved traffic calming measures and features shall be installed prior to the occupation of any house within the site and shall be maintained as such within the site for the lifetime of the development.

19. Unless otherwise agreed in writing, no development shall commence on site until a Travel Plan which includes details promoting sustainable travel to and from the site and appropriate measures and actions to reduce car dependence for the development is submitted for the written approval of the Planning Authority. The Travel Plan shall include details of the contents of an information pack which will be provided to future occupants of the development to ensure that they are aware of their public transport and active travel options available within the area. The approved Travel Plan and all associated measures and actions shall be in place and implemented in full prior to the occupation of the 1st house associated with the development and maintained as such unless otherwise agreed in writing by the Planning Authority
20. Notwithstanding the 'Ground Investigation Report' (Dated February 2020) submitted, no development (other than investigative works) shall commence on site until such time as a detailed report on the nature and extent of any contamination of the site has been submitted to and approved in writing by the Planning Authority. The report shall be prepared by a suitably qualified person and shall include the following:
- (a) A detailed site investigation identifying the extent, scale and nature of the contamination on the site (irrespective of whether this contamination originates on the site).
 - (b) An assessment of the potential risks (where applicable) to:
 - Human health
 - Property (existing and proposed) including buildings, crops, livestock, pets, woodland and service lines and pipes
 - Groundwater and surface waters
 - Ecological systems
 - Archaeological sites and ancient monuments
 - (c) An appraisal of remedial options, including a detailed remediation scheme based on the preferred option.
21. No development (other than investigative works) shall commence on site until such time as a detailed remediation scheme for the site has been submitted to and approved in writing by the Planning Authority. The scheme shall be prepared by a suitably qualified person and shall detail the measures necessary to bring the site to a condition suitable for the intended use by removing unacceptable risks to human health, buildings and other property, and the natural and historical environment. The scheme shall include details of all works to be undertaken, the remediation objectives and criteria, a timetable of works and/or details of the phasing of works relative to the rest of the development, and site management procedures. The scheme shall ensure that upon completion of the remediation works the site will not qualify as contaminated land under Environmental Protection Act 1990 Part IIA in relation to the intended use of the land after remediation.

22. The approved remediation scheme shall be carried out in accordance with its terms prior to the commencement of development other than that required to carry out remediation, unless otherwise agreed in writing by the Planning Authority. The Planning Authority shall be notified in writing of the intended commencement of remediation works not less than 14 days before these works commence on site. Upon completion of remediation works and prior to any house being occupied, a verification report which demonstrates the effectiveness of the completed remediation works shall be submitted to and approved in writing by the Planning Authority.
23. If required, a monitoring and maintenance scheme to include monitoring the long-term effectiveness of the proposed remediation over a period of years determined by the scheme shall be submitted to and approved by the Planning Authority. Any actions ongoing shall be implemented within the timescale agreed by the Planning Authority in consultation with Environmental Health measures. Following completion of the actions/measures identified in the approved remediation scheme a further report which demonstrates the effectiveness of the monitoring and maintenance measures shall be submitted to and approved in writing by the Planning Authority.
24. The presence of any previously unexpected contamination that becomes evident during the development of the site shall be reported to the Planning Authority in writing within one week, and work on the site shall cease. At this stage, if requested by the Planning Authority, an appropriate investigation and risk assessment shall be undertaken and a remediation scheme shall be submitted to and approved by the Planning Authority prior to the recommencement of site works. The approved details shall be implemented as approved.
25. If there is a requirement to either re-use site won material or to import material then the assessment criteria and sampling frequency that would adequately demonstrate its suitability for use shall be submitted to and approved by the Planning Authority prior to any material being re-used or imported. In addition to this and in accordance with BS3882:2015 and BS8601:2013, material to be used in the top 300mm shall be free from metals, plastic, wood, glass, tarmac, paper and odours. Prior to placement of any of the material, the developer shall submit a validation report for the approval in writing of the Planning Authority and it shall contain details of the source of the material and associated test results to demonstrate its suitability for use. Thereafter the development shall be undertaken in accordance with the approved details.
26. No piling works shall be carried out until a method statement has been submitted to and approved in writing by the Planning Authority. This statement shall include an assessment of and take into account the following:
 - The impact of the piling on surrounding properties.
 - Detail any procedures which are required to minimise the impact of noise and vibrations on the occupants of surrounding properties.

This statement as submitted shall be prepared by a suitably qualified person and shall take into account the guidance contained in BS6472:1984 'Evaluation of Human Response to Vibration of Buildings'. The piling works shall thereafter be carried out in accordance with the approved method statement until they are completed on site.

27. No development shall take place on site until such time as a Noise Impact Assessment has been submitted to and approved in writing by the Planning Authority. This Noise Impact Assessment (alongside any recommendations in respect of attenuation measures) shall be prepared by a suitably qualified person and shall include an assessment of the potential for occupants of the development to experience noise nuisance arising from nearby industrial / commercial units and from the impact of road traffic noise. Where a potential for noise disturbance is identified, proposals for the attenuation of that noise shall be submitted to and approved in writing by the Planning Authority. Any such approved noise attenuation scheme shall be implemented prior to the occupation of any of the houses within the site and shall thereafter be retained in accordance with the approved scheme unless otherwise agreed in writing by the Planning Authority.
28. Further to Condition 27 above, within 4 weeks of the completion of the development on site, a 'Verification Report' demonstrating compliance and validation of the maximum noise projections and effectiveness of the noise attenuation measures detailed within the approved 'Noise Impact Assessment' Report (approved through Condition 25) shall be submitted to and approved in writing by the Planning Authority. This 'Verification Report' shall be prepared and undertaken by an independent consultant and the measurements shall be carried out in accordance with BS4142:2014 - "Methods of rating and assessing industrial and commercial sound" (with respect to current best practice). These levels and measures as agreed and validated within the approved verification report shall be maintained for the lifetime of the development thereafter unless otherwise agreed in writing by the Planning Authority.
29. No development shall commence on site until such time as a noise control method statement for the construction period has been submitted to and approved in writing by the Planning Authority. This statement shall identify likely sources of noise (including specific noisy operations and items of plant/machinery), the anticipated duration of any particularly noisy phases of the construction works, and details of the proposed means of limiting the impact of these noise-sensitive properties. The construction works shall thereafter be carried out in accordance with the approved method statement unless otherwise approved in writing by the Planning Authority.

30. During the period of construction, all external works including piling and ancillary operations shall be carried out between the following hours and at no other time, unless otherwise agreed in writing by the Planning Authority:
- Mondays to Fridays : 0800 – 1800
 - Saturdays : 0800 – 1300
 - Sundays and public holidays: No Working
31. Unless otherwise approved in writing by the Planning Authority, no development shall commence on site until such time as a scheme for the control and mitigation of dust has been submitted to and approved in writing by the Planning Authority. The scheme shall identify likely sources of dust arising from the development or its construction, and shall identify measures to prevent or limit the occurrence and impact of such dust. The approved scheme shall thereafter be implemented fully prior to any of the identified dust generating activities commencing on site and shall be maintained thereafter, unless otherwise approved by the Planning Authority.
32. No development shall commence on site until details for the storage and the collection of waste arising from the development shall be submitted to and approved in writing by the Planning Authority. The agreed details shall be in place prior the occupation of the first housing unit/property within the site and thereafter maintained for the lifetime of the development.
33. Prior to the occupation of the first house within the site, the developer shall install the necessary infrastructure to enable the full development and all associated properties to be connected to the existing fibre optic network, where available in West Dunbartonshire, and in accordance with the relevant telecommunications provider's standards.
