They may wish to contact you again in the future, but we require your permission to do so. Are you content for Scottish Government to contact you again in relation to this consultation exercise?

Please tick as appropriate Yes No

CONSULTATION QUESTIONS

Question 1: Is this the right vision for the Scottish Fire and Rescue Service?

Yes No Don't know

The vision is the right one in that it is responsive to the increased demands for locally delivered and locally managed services.

Question 2: Do you agree that these should be the key principles for the Scottish Fire and Rescue Service?

Yes No Don't know

Question 3: Do you agree that the option to de-centralise the Scottish Fire and Rescue Service should be considered?

Yes No Don't know

Comments from some local stakeholders suggest that a culture change in terms of the approach to partnership working is required rather than a structural change.

Question 4: How well is the Scottish Fire and Rescue Service performing against what you believe to be the key principles and what do you consider to be the priorities for improvement?

The SFRS is working effectively in West Dunbartonshire and is fully committed to developing excellence in its activity and to working in partnership through the CPP.

Question 5: Do you agree that these should be the desired benefits for the Scottish Fire and Rescue Service?

Yes No Don't know

Are there others we should add?

Desired benefits outlined in consultation paper are agreed and fully comprehensive

Question 6: What are your views on an appropriate mechanism for Ministers and MSPs to hold the Scottish Fire and Rescue Service to account?

The concept of a "blue light" parliamentary scrutiny committee should be progressed. A membership group wider than MSPs should also be considered.

Question 7: What are your views on an appropriate mechanism for local communities to hold the Scottish Fire and Rescue Service to account?

The concept of a "blue light" community planning committee should be piloted, populated by key stakeholders including elected members and community reps.

Question 8: What is the right balance between the national and local mechanisms set out in questions 6 and 7?

Strategic and corporate issues should be addressed nationally, all other operational and tactical issues should be addressed locally.

Question 9: Do you think that the number of fire and rescue services needs to be reduced?

Yes No Don't know

No Specific Comments, but in general terms the cost of restructuring should be considered, and any changes must protect the quality and impact of services.

Question 10: If so, which option do you think should be pursued and why?

Single service Regional Structure

More efficient, better standards across Scotland, more cost effective - but must allow operational issues to be devolved to local authority level.

Question 11: To assist with our Equality Impact Assessment process, please also describe any equality issues (in relation to race, gender, disability, age, sexual orientation, transgender people and religion) relevant to your chosen option?

no specific comments

Question 12: To assist with our Regulatory Impact Assessment, please also describe any financial and other impacts for business, charities and the voluntary sector relevant to your chosen option?

No Specific Comments

Question 13: What aspects of collaboration and joint working between the Scottish Fire and Rescue Service and other emergency services do you believe should be a key focus in future?

no specific comments

Question 14: Do you think local fire stations should be developed into community resilience hubs, and, if so, what new services would you see them deliver?

Yes No Don't know

There should be an emphasis on working in partnership through existing CPP structures to deliver more awareness raising and preventative work.
