**Returning Officer's comments on this Polling Place:**

This is the main community hall for the village. It is well situated, with a disabled access ramp at the side of the property leading directly into the lower hall which is used for polling.

The hall offers generous accommodation for the single polling station and there are adequate facilities for staff.

Retain as a polling place.

#### **Returning Officer's Comments:**

In May 2010, 4 polling stations were used in this building. However, in order to reduce the risk of queuing I recommend an increase to 5 polling stations.

Retain as a polling place.

**Returning Officer's Comments:**

This centre may transfer to community ownership in 2012. Given that there are no other suitable premises within this polling district, it should be a condition of transfer that the Council will continue to be able to utilise the centre for election purposes at the standard rates of let.

**Representations received from:**

**1) Councillor Patrick McGlinchey**

Suggested that an alternative polling place be found for voters in Mountblow area due to distances.

**Response**

The Mountblow Community Centre is not large enough for polling. In 2007, the view of the Access Panel was sought and the Secretary confirmed that the premises would not be suitable.

The only alternative to the Community Centre is the use of portacabins which are very unpopular with the public and there are security and safety concerns regarding the proposed location of the portacabins on Melbourne Avenue.

**2) Councillor Marie McNair**

Suggested using Dalmuir Community Learning and Development Centre as a polling place for voters in WC23.

**Response/**

## **Response**

The Social Room would be a suitable polling place but the Centre would need to be closed to the public on the Wednesday evening and all day Thursday for security purposes.

## **Returning Officer's Comments:**

This is a large polling place which accommodates voters from Wards 5 and 6. Fewer polling stations are required at a Parliamentary election because voters do not have to be divided by ward. The Council may wish to consider using the Dalmuir Community Learning and Development (CL&D) Centre as a polling place for voters in Polling District WC23 as this will also reduce the number of voters using the church hall which can be busy. If this is agreed then this would leave four polling stations within Dalmuir Barclay Parish Church hall and three would be required within Dalmuir CL&D Centre.

Retain as a polling place.

**Returning Officer's Comments:**

There are steep steps up to the main entrance. For polling day the main entrance is closed and all electors enter by the side entrance which is accessible to voters in wheelchairs or with limited mobility. Retain as a polling place.

**Representations received from Councillor Gail Casey**

Suggested that Centre 81 be used as an additional polling place to reduce travel distances for some voters.

**Response**

The Centre 81 management has confirmed that the premises would not be available for polling purposes. Officers investigated using the Clydebank East C&LD Centre as an alternative to Centre 81 but it is located relatively close to the Church and therefore the distances are only reduced by 0.1 mile which is not sufficient to justify having two polling places in the one polling district.

**Returning Officer's Comments:**

Retain as a polling place.
