

WEST DUNBARTONSHIRE COUNCIL

Report by the Executive Director of Corporate Services

Corporate and Efficient Governance Committee : 27 January 2010

Subject: Former Tenant Rent Arrears – Quarter 3 2009/2010

1. Purpose

- 1.1 This report seeks Committee approval for rent arrears write-offs for the third quarter of 2009/10

2. Background

- 2.1 Financial Regulations D4 gives the Head of Finance & ICT authority to write-off individual debts up to £500.
- 2.2 Individual debts exceeding £500 can be written off only with the approval of the Council.
- 2.3 Corporate and Efficient Governance Committee at its meeting on 26 March 2008 agreed that the details of individual debtors should not be identified on the report. A detailed list is placed in the Members' library.

3. Main Issues

- 3.1 Each year the Council has to consider writing-off arrears of rent which it has not been possible to collect. It should be noted that, although these cases are written-off, there is nothing to prevent later pursuit of the debt if new information becomes available in the future.
- 3.2 The accounts submitted for write off fall into the following categories:-

Deceased

When a tenant dies and leaves no estate.

Records are checked to determine whether any estate exists against which a claim could be made.

Prescribed

A former tenant's arrears become prescribed unless a "relevant claim" has been made against the former tenant, or the former tenant has acknowledged the debt within five years from the debt being incurred.

Unreasonable to Pursue

When a tenant is permanently hospitalised or goes into residential care their income is used towards the cost of their care, as is any capital which the person may have. It is, therefore, unreasonable to pursue any arrears from people in this category. It is also unreasonable to pursue arrears from former tenants who cannot deal with their arrears problems due to mental illness, dementia or learning disability. Former tenants who receive a custodial sentence will have their debt written off for the period of their sentence, this will be reinstated upon their release.

- 3.3 The total proposed write-off is £5,444.01 and Appendix 1 shows the breakdown of this sum by category. A detailed list has been placed in the Members' library.

4. Personnel Issues

- 4.1 There are no personnel issues

5. Financial Implications

- 5.1 Sufficient budgetary provision exists for this write off.

6. Risk Analysis

- 6.1 If write offs are not approved, this will affect the monitoring of performance against targets for performance indicators and budget monitoring within the Housing Revenue Account (HRA). .

7. Conclusions and Officers' Recommendations

- 7.1 This report seeks Committee approval for rent arrears write-offs totalling £5,444.01 for 2009/2010 as detailed in the appendix to the report.
