Operations and Servicing

£80,650 Fav This favourable variance is due to the successful implementation of the policy of freezing vacant posts.

Residential Accommodation - Young People

This overspend is mainly due to the increased costs of fostering placements, which are a result of foster parents switching from the council's employment to that of foster agencies.

Residential Schools

This overspend is mainly due to the number of placements being greater than that anticipated in the budget (also affects Education).

Other Services – Young People

This adverse variance is the result of higher supplementation costs resulting from increased client need and new clients.

Residential Accommodation - Elderly

This favourable variance has two main factors. There has been a reduction in care element transfer costs due to reduced numbers of clients placed in external care homes and income has been higher than originally budget.

Day Centres – Elderly

This favourable variance has two main factors. Employee Costs are favourable due to the non filling of vacant posts, while transport costs have been reduced as a result of transport recharges being lower than originally budgeted.

Residential Accommodation - Learning Disability

This overspend is mainly due to increased supplementation costs due to increased client need and new clients. In addition, the level of income received is lower than originally budgeted due to a reduction in income from the NHS.

Residential Accommodation - Physical Disability

The reason for this adverse variance is an increase in payments to other bodies due to increased client need and new clients.

Day Centres - Learning Disability

This favourable variance is due to savings being achieved from the temporary closure of the Auchentoshan Day Centre.

Other Services – Disability

This favourable variance is due to the receipt of additional income not originally anticipated.

Home Care

This underspend has two main factors , namely savings in staffing costs and payments to other bodies due to the level of demand being managed in a more cost effective way.

Other Specific Services

The reason for this adverse variance is due to higher than anticipated rent charges.

Addiction Services

This adverse variance is the result of increased supplementation costs due to increased client need.

Housing, Environmental and Economic Development Services

Directorate and Administration £56,990 Adv This adverse variance is due to a number of factors including unanticipated staffing costs (death in service) and the re-allocation of indirect costs being higher than anticipated.

Catering Services

This favourable variance is due primarily to savings in salary costs.

Street Lighting

This favourable variance is due to a reduction in the rates applied on the temporary un-metered lighting contract.

Traffic Management

£27,530 Adv This adverse variance is due to a delay in the implementation of savings options and trawl process.

Outdoor Recreation

This adverse variance is due income being less than budgeted.

Leisure Services Client

£169,110 Adv This adverse variance is due to insufficient budget allocation for single status and higher than anticipated gas costs.

Homeless Persons

This adverse variance is due to increased demand on removals and redecoration costs.

Planning

£36,310 Adv This adverse variance is due to a reduction on income received from building warrant applications.
